#### ASSEMBLY JOINT RESOLUTION No. 26

Relative to memorializing Congress to propose an amendment to the Constitution of the United States providing for economic planning and regulation.

WHEREAS, Modern scientific use of natural power and machinery and efficient conduct of business and commerce, have brought about the production of commodities and rendition of services with a rapidly decreasing amount of human effort; and

WHEREAS, This condition has resulted in a great surplus of human labor and of available commodities and services; and

WHEREAS, There have ensued great unemployment, misery, suffering and crime, with the possibility of social and political destructions of the gravest character; and

WHEREAS, Under the present unregulated system of conducting competitively for profit the production and commerce of the Nation, there exists no natural economic principle or factor which will in times of peace counteract the destructive tendency toward overproduction, unemployment and inadequate income to most of the employed; and

WHEREAS, It would appear that, with proper use and control of modern means of production and distribution, it would be possible for practically all persons to have and enjoy a fair share of material goods in return for services rendered; and

WHEREAS, Such use and control and governmental economic planning are not feasible except through the direction and supervision of a single centralized agency and not fully attainable without the removal of certain constitutional limitations; now, therefore, be it

*Resolved, by the Assembly and Senate, jointly,* That the Legislature of the State of California hereby memorializes the Congress to propose an amendment to the Constitution of the United States reading substantially as follows:

"The Congress, and the several States, by its authority and under its control, may regulate or provide for the regulation of hours of work, compensation for work, the production of commodities and the rendition of services, in such manner as shall be necessary and proper to foster orderly production and equitable distribution, to provide remunerative work for the maximum number of persons, to promote adequate compensation for work performed, and to safeguard the economic stability and welfare of the Nation"; and be it further

*Resolved,* That the Legislature of California respectfully urges that, pending the submission and adoption of such an amendment, the Congress provide for such economic planning and regulation as may be necessary and proper under present economic conditions and legally possible under the existing provisions of the Constitution; and be it further

*Resolved,* That the Chief Clerk of the Assembly is hereby instructed forthwith to transmit copies of this resolution to the President of the United States, and to the President of the Senate, the Speaker of the House of Representatives and each of the Senators and Representatives from California in the Congress of the United States.

Assembly Joint Resolution No. 26 ordered transmitted to the Assembly.

Assembly Bill No. 1006—An act to provide a five-day week for State employees during the present unemployment emergency, and declaring the urgency thereof.

#### URGENCY CLAUSE.

SEC. 4. This act is declared to be an urgency measure deemed necessary for the immediate preservation of the public peace, health and safety within the meaning of section 1 of Article IV of the Constitution and shall take effect immediately.

The following is a statement of the facts constituting such necessity: According to the estimate of the State Unemployment Commission, the number of persons affected by unemployment in California is one million five hundred eighty-nine thousand, which includes seven hundred thousand unemployed and eight hundred eighty-nine thousand dependents. As a result of this condition of joblessness, poverty, destitution, and pauperism have become a grave menace to the health, safety, morals, and welfare of the people of the State. Because hundreds of thousands of self-respecting citizens, able and willing to work, are unable to find employment to support themselves and their families, it is essential that a policy of work spreading and a shorter work week should be put into effect at once. The State, by adopting such a policy for the period of the present emergency, can furnish employment to many unemployed workers and can thereby give added impetus to the practice of work-spreading in private industry. This act constitutes one of the means of adopting such a policy and therefore should be adopted as an emergency measure.

SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of section 1 of Article IV of the Constitution of the State of California and shall therefore go into immediate effect.

(f) To pay the pro-rata share of the overhead and general administrative expense of the State Controller and the State Board of Equalization attributable to duties imposed by this act or under the provisions of section 15 of Article XIII of the Constitution, and legislation enacted pursuant thereto. Such pro-rata share shall be payable upon presentation of claim against any appropriation from the motor vehicle fuel fund for the support of the State Controller or the State Board of Equalization, as the case may be.

(g) To pay refunds as may be due on account of judgments for the return of license taxes illegally collected, as provided in section 16 of this act.

One-third of all moneys in said "motor vehicle fuel fund" after the biennial appropriations to the State Controller and the State Board of Equalization have been

Out of said appropriations each county and city and county shall have for each five thousand dollars for each square of a mile. The balance remaining in said appropriation, after making such apportionment of the demands of such counties, shall be apportioned to all of the counties and cities and counties of this State in the proportion that the population of each of such counties and cities and counties bears to the total number of counties reported in this State.

All such amounts so paid to the several counties shall be paid into a special road improvement fund. Such fund shall be expended by the county receiving it solely, solely in the construction and maintenance of roads, bridges and supports in such such county.

But the board of supervisors of any county may in its discretion expend any portion of such sums as provided by such county in the construction, maintenance and repair of streets, bridges and supports within those unincorporated cities within the legislative bodies of which no application or petition for incorporation made under the constitution, ordinances and laws. The board of supervisors of any county, or city and county or hereby constituted to exercise any portion of the authority and to the said county, or city and county and dependent in the special road improvement fund or other road fund created, on basis of the money donated, or used for the construction of public highways outside of its corporate limits, provided, however, that the construction thereof is authorized by ordinance or resolution of the board of supervisors of the county, or city and county, in which such highway is to be constructed. Where such incorporation is made, as herein provided, the board of supervisors of the county, or city and county, owning the said construction, may, through its own board of officers or representatives, expend the moneys thereon authorized to be expended, or may, by resolution of its board of supervisors, transfer said moneys to the account of the Highway Commission of the State of California or to the account of the Secretary of Agriculture of the United States, and may by such resolution specify and designate the route and type of construction of such highway, and the said account then appropriated shall be expended by the said Highway Commission, or said Secretary of Agriculture, as provided for the purpose intended and determined in said resolution, and no otherwise.

In the event that any such county has not established such a road fund, its proportion of such fund shall be retained by the State until provision for such a road fund has been made, and it shall then be paid over to such county.

In the months of January, April, July and October of each year, the Controller shall ascertain the gross taxable property and the net income, including after deducting the amount attributable for the support of the Controller and the Board of Supervisors and the payment of the moneys for which provision is made in section 11 of this act during the preceding three months, and thereafter the Controller shall draw his warrant upon the State Treasury for three of each county in the State for the amount, or more than such moneys is desired. The Controller shall not draw such warrant in favor of any county which shall not have established such a road fund, or in favor of any county in which shall be deficient in its annual report to the State Department of Public Works as hereinafter required.

The board of supervisors of each county shall make an annual report to the State Department of Public Works not later than three months after the close of the county's fiscal year, and return to be received by such department, showing the amount of moneys received from the "motor vehicle fund fund" during the preceding fiscal year and the disposition of such moneys, giving such details as to the disposition of such moneys as may be required by such department. Whenever such report shall not have been filed with the department and none before provided for at or before the time herein specified, the State Controller shall not issue his warrant in favor of the treasurer of such county until such report has been filed.

All moneys in the "motor vehicle fund fund" other than those heretofore appropriated, are hereby appropriated to and shall be by the State Treasurer and into the "State highway fund," which fund is hereby created and shall be allocated and expended by the State Department of Public Works, Division of Highways, for the acquisition of rights of way for the construction, maintenance, repair, widening, resurfacing, reconstruction or other improvement of State highways, and for the maintenance, repair, widening, resurfacing and reconstruction of roads and highways in State parks subject to the approval of the official or officials charged by law with the management and control of such parks and to the further specified in that certain act entitled "An act to provide for the acquisition of rights of way for and the construction, maintenance and improvement of State highways, classifying the highways in the State system and allocating and designating the expenditure of funds for the construction, maintenance and improvement of State highways" passed at the forty-seventh session of the Legislature, as amended.

All moneys drawn from said "State highway fund" shall be upon warrants drawn by the State Controller upon demands made by the Department of Public Works,

Division of Highways, and allowed and audited as provided by the rules of the State Board of Control.

SEC. 4. SEC. 4. A new section to be added to the Political Code, to be designated 3397c, and to read as follows:

3397c. Whenever any property has been divided for delinquent taxes and/or assessments to the State, and said property has also been divided for delinquent taxes and/or assessments to any municipality, irrigation district, reclamation district or other public agency or district, or to any private company or firm, for a reclamation district as provided by law, or a hotel or transient, board or dormitory or other governing body of any such public corporation or district, or any county treasurer, with the consent of the board of trustees of the reclamation district for which he holds said property as trustee, and after due agreement with the board of supervisors of the county in which such property is situated, subject to the approval of the State Controller as hereinafter provided, for the purpose of, or for an option to purchase, the property as held by the State, or any part or parts thereof. The term "public agency" as used in this section means any such municipality, irrigation district, reclamation district, or other public corporation or district or any county treasurer who shall guarantee such to any land or parcel for a reclamation district as provided by law, and the term "public agencies" as used in this section means more than one public agency of any kind or kinds. The word "county" as used in this section shall be construed to include this and county. If one two or more public agencies shall have taken title to the same property, they may jointly agree with the board of supervisors of the county in which said property is situated for the purchase of, or for an option to purchase, said property as divided to the State, or any part or parts thereof, and after agreement with the board of supervisors of said property to one or more public agencies, or to one city or town or them, with such interests therein as may be provided in said agreement. And said agreement may cover any land divided to the State for delinquent taxes and/or assessments without regard to the boundaries of the parcels in which it was divided to the State, and may provide for the sale of various portions of said land at various prices and on various terms and for an option or options to purchase the remaining portion or portions thereof, but an option to purchase any such land shall be given for a period of more than three years. Notwithstanding any other provision or provisions of this code or of any law or laws governing any public agency or public agencies which may become a party or parties to any such agreement, if such provide for the price or prices for which and the terms on which the property described therein may or shall be purchased, and when any such agreement shall have been signed by the State Controller as herein provided, the time or times and the terms set forth in said agreement shall be the lawful price or prices for which and the lawful terms on which said property may or shall be sold. As many executed copies of said agreement as there are parties to it and one additional copy shall be submitted to the State Controller. If he shall not approve the agreement, he shall return a copy of it to each party thereto with a statement of his objections to it, and thereafter a new or amended agreement may be made. If the State Controller shall approve the agreement, he shall sign and execute copy thereof and return one copy so signed to each party thereto, and keep one executed copy thereof on file in his office. Thereupon he shall, by written certification, direct the tax collector of the county in which the property described in said agreement is situated to cause notice in writing of the making of said agreement to be given as hereinafter provided. Said notice shall describe the property covered by the agreement substantially as described therein, and shall state the name of the person to whom the property was assessed, or the various persons to whom the property or any portions

thereof were assessed, for each year in which there may be delinquent taxes against said property or any part or parts thereof, and said notice shall also state that an agreement for the sale of said property or for an option to purchase it, or both, as the case may be, has been made by the board of supervisors of the county with the public agency or public agencies named in the agreement and has been approved by the State Controller, and that a copy of said agreement is on file in the office of said board of supervisors. Said notice shall be published for at least three successive weeks in some newspaper published in the county in which said property is situated, or if there be no newspaper published therein, then by posting copies of said notice in three conspicuous places in the county, one of which shall be in the United States post office nearest the land, in addition to a notice conspicuously posted on the land itself for the same period. The tax collector shall also mail, within five days after the first publication of said notice, a copy thereof, postage thereon prepaid and registered, to the party to whom the land was last assessed next before the making of said agreement, at his last known post-office address, or if no address is known for such party, then to the county seat of the county in which said land is situated, or, if various portions of the property covered by said agreement were last assessed to various parties, then a copy of said notice shall be mailed as aforesaid to each party to whom any portion of said land was last assessed. The cost of giving the notice of said agreement as aforesaid shall be paid by the public agency or public agencies by which the property described therein is to be or may be purchased as provided therein. An affidavit or affidavits showing that notice has been given as herein prescribed shall be filed in the office of the county tax collector, and said agreement shall not become effective until twenty-one days after the first publication and the mailing, or until twenty-one days after the posting and mailing, of said notice as herein provided. It shall not be necessary to mail said notice to a party if such party shall file with the tax collector a written acknowledgment of receipt of a copy of said notice or a waiver of said notice. If within twenty-one days after the first publication and the mailing or the posting and mailing of said notice as herein provided, said property or any of it is redeemed as provided in this code, or if said property or any of it is thereafter redeemed before the purchaser or purchasers named in said agreement shall have complied with all the terms of purchase therein set forth, then the agreement shall become and be null and void as to the property so redeemed, but if said property or any of it is not so redeemed, then whenever the public agency or public agencies named in said agreement as the purchaser or purchasers or optionee or optionees of said property shall have complied with all of the terms thereof required for the purchase of said property or any portion thereof, the tax collector of the county in which said property or such portion thereof is situated shall make, execute and deliver to such purchaser or purchasers a deed to said property, or such portion thereof as to which the terms of said agreement shall have been complied with, which deed shall be in substantially the following form:

CONSIDERATION OF RESOLUTION OFFERED BY SENATOR CRITTENDEN.

MARCH 21, 1933.

SENATE RESOLUTION.

WHEREAS, On March 9, 1933, the following communication was received by the Senate from the Railroad Commission of the State of California:

SAN FRANCISCO, CALIFORNIA, March 8, 1933.

*To the Senate of the State of California:*

GENTLEMEN: According to recent reports there are before your body resolutions calling for certain information from this commission regarding the rates of return of the utilities of the State and kindred matters. Whether or not those resolutions are passed, this commission is desirous of not only furnishing any information wanted but of getting your aid in attempting to harmonize the income of the utilities with conditions existing with businesses and individuals. Some proposed legislation is now before you which may indirectly assist in this regard.

For the past three years this commission has been devoting especial attention to utility rates and has succeeded in reducing the rates below what has been allowed in normal times, except where we have been attacked in the Federal courts. We have now those before us on other hearing. In addition to this, we have contemplated and have been preparing to take more drastic action which might or might not take us further into the Federal courts. On February 14th of this year the commission spread upon its minutes a resolu-

tion directing its departments to bring together in concise form the data necessary upon which to institute such emergency proceedings regarding rates and rates of return. We have not heretofore actually started such proceedings for four principal reasons:

1. Because to do so would have unduly interfered with the legal and proper process of the Legislature in the equalization of utility taxes, which matter we knew would be before your bodies.
2. Because we believed if equalization of taxes was accomplished the return of the utilities would be reduced substantially and perhaps as low or lower than we could accomplish by an attempt to exercise extraordinary regulatory powers.
3. Because we believed the proposed equalization of taxes would be a surer way of reducing return than drastic action on the part of this commission subject, as the latter action is, to delay and reversal through the Federal courts.
4. Because this commission is in a much stronger position to prevent rate increases than to reduce rates.

The commission is also advised through the press and by individual members that it is contemplated later in the session to attempt equalization of utility taxes. We wish to conform to the wishes of the Legislature in this matter. If it is your desire that we proceed at once to attempt drastic reduction of rates under the circumstances we are prepared to do so.

Respectfully,

RAILROAD COMMISSION OF THE STATE OF CALIFORNIA.

By CLYDE L. SEAVEY, President."

and,

WHEREAS, We believe it to be to the best interest of all the people of the State of California that the rates of all public utilities charged to the consuming public be reduced to the lowest point which is just and fair under present conditions; and

WHEREAS, In said letter it was stated that certain legal proceedings have not been started to obtain reduction in rates and said commission was awaiting the action of the Legislature on the equalization of taxes; and

WHEREAS, In said communication the said Railroad Commission stated that the commission wished to conform to the wishes of the Legislature in the matter of pressing proceedings for the reduction of rates; now, therefore, be it

*Resolved by the Senate of the State of California, and it is hereby resolved.* That this Senate does hereby urge the Railroad Commission of the State of California to proceed at once to lower rates to an amount which is just and fair under present conditions; and be it further

*Resolved.* That copy of this resolution be forthwith mailed to the Railroad Commission by the Secretary of this Senate.

#### MOTION TO AMEND.

Senator Jones moved to substitute for the last two paragraphs of said Senate resolution of March 21, the following concurrent resolution:

WHEREAS, Interest rates paid by savings banks to their depositors have been reduced from four per cent to three per cent, and the interest paid on savings of the public invested with building and loan associations has been reduced from six per cent to four per cent and three and one-half per cent, and even lower in the discretion of the Building and Loan Commissioner; and

WHEREAS, Wage earners have been forced to accept reductions in their wages ranging from ten per cent to fifty per cent, and even with such lower income are insecure in their position; and

WHEREAS, The salaries of public officials, local and State, are being reduced in many instances thirty per cent; and

WHEREAS, The President of the United States is proposing legislation whereby the interest on mortgages owed by farmers shall be reduced from seven per cent and eight per cent and even twelve per cent to four and one-half per cent; and

WHEREAS, The profits of the farmer and the manufacturer and the merchant have in extensive sections of our State been entirely eliminated, while others are operating at a loss, and still others are being forced into bankruptcy; and

WHEREAS, The power companies and telephone and telegraph companies doing business in this State under regulation by the Railroad Commission have been permitted to collect from the people net profits of seven per cent and more on the value of their properties and still are collecting such profits; and

WHEREAS, This Legislature regards such profits as unreasonable, out of harmony with present conditions, and an imposition on the rate paying public; and

WHEREAS, In the opinion of this Legislature a five per cent return, as compared with returns on other investments, would be a fair return to the power companies and telephone and telegraph companies; now, therefore, be it

*Resolved in the Senate at the State of California the Assembly concurring.* That this Legislature does hereby urge the Railroad Commission of the State of California to proceed at once to lower the rates advanced those railroads to the end that they may not collect as net profit more than five per cent on their investment, and be it further

## RESOLUTION.

The following resolution was offered:

By Senator Difani:

WHEREAS, On the twentieth day of March, 1933, the Congress of the United States adopted an act entitled "An act to maintain the credit of the United States Government"; and

WHEREAS, Such act conferred on the President of the United States certain limited authority to modify veteran's relief legislation; and

WHEREAS, On or about the first day of April, 1933, the President of the United States, acting pursuant to provisions of said act, issued and promulgated regulations to take effect July 1, 1933, reducing allowances to veterans; and

WHEREAS, It would appear that such regulations if not modified will affect many veterans residing in California who, because of disability or infirmity are unable to obtain gainful employment; and

WHEREAS, The allowances to many such veterans have been reduced to a point below the subsistence level, necessarily resulting in their becoming charges upon the State, county and city in which they reside; now, therefore, be it

*Resolved by the Senate of the State of California,* That the President of the United States is hereby respectfully urged to consider modification of the regulations heretofore issued by him on or about April 1, 1933, to the end that allowances heretofore awarded to veterans unable to work may not be reduced to a point below subsistence level, and that particular consideration be given in the case of veterans having disabilities arising directly out of war service; and be it further

*Resolved,* That the Secretary of the Senate is hereby instructed forthwith to transmit copies of this resolution to the President of the United States.

## AYES AND NOES DEMANDED.

A roll call was demanded by Senators Difani, McColl and Pierovich, on the adoption of the resolution.

The roll was called, and the resolution adopted by the following vote:

NOES—Senators Breed, Bush, Deuel, Gordon, Hays, Ingels, McKinley, Moran, Perry, Rich, Stow and Wagye—12.

## COMMUNICATION.

The following communication from the Legislative Counsel was received and read:

STATE OF CALIFORNIA, OFFICE OF LEGISLATIVE COUNSEL.

SACRAMENTO, CALIFORNIA, May 12, 1933.

*Hon. Joseph A. Beek, Secretary of the Senate,  
State Capitol, Sacramento, California.*

DEAR MR. BEEK: You have requested our opinion as to whether or not Assembly Bill No. 289, as amended April 28th, and May 10, 1933, violates Joint Rule No. 9.

In our opinion the amendment made to the bill on April 28th violated Rule 9. The amendment made on May 10th, while germane to the amendment of April 28th, was not germane to the original bill, and likewise violated the rule.

The bill, as introduced, was designed to permit any water users' association to levy unequal assessments on its capital stock to raise funds to pay for the cost of construction of Federal reclamation works under the terms of contracts which might have been made with the Federal government.

The bill as amended April 28th authorized the Department of Finance to acquire land along the American River, for the construction of a reservoir for the impounding and utilization of the waters of said river, and to lease lands owned by the State to private persons or public agencies for the construction of dams and storage areas.

The amendment of May 10th would authorize the Department of Public Works, rather than the Department of Finance to do the things mentioned in the bill as amended April 28th.

In our opinion, neither of these amendments deals with the same subject matter as the original bill; each violates Joint Rule No. 9.

Very truly yours,

FRED B. WOOD, Legislative Counsel.

## RULING BY PRESIDENT OF THE SENATE.

The President of the Senate ruled that Assembly Bill No. 289 could not be considered further, because the bill was in conflict with Joint Rule No. 9.

The Secretary was directed to inform the Assembly that Assembly Bill No. 289 would not be considered further.

#### Assembly Amendments to Senate Bill No. 108.

##### AMENDMENT NUMBER ONE.

On page 1 of the printed bill, strike out the title, and insert in lieu thereof the following: "An act to amend section 726 of the Code of Civil Procedure relating to foreclosure of mortgages."

##### AMENDMENT NUMBER TWO.

On page 1 of the printed bill, strike out all of lines 1 to 18, inclusive, and insert in lieu thereof the following:

"SECTION 1. Section 726 of the Code of Civil Procedure is hereby amended to read as follows:

726. There can be but one form of action for the recovery of any debt, or the enforcement of any right secured by mortgage upon real or personal property, which action must be in accordance with the provisions of this chapter. In such action the court may, by its judgment, direct the sale of the encumbered property (or so much thereof as may be necessary), and the application of the proceeds of the sale to the payment of the costs of court, and the expenses of the sale, and the amount due plaintiff, including, where the mortgage provides for the payment of attorney's fees, such sum for such fees as the court shall find reasonable, not exceeding the amount named in the mortgage.

The court may, by its judgment, or at any time after judgment, appoint a commissioner to sell the encumbered property. It must require of him an undertaking in an amount fixed by the court, with sufficient sureties, to be approved by the judge, to the effect that the commissioner will faithfully perform the duties of his office according to law. Before entering upon the discharge of his duties he must file such undertaking, so approved, together with his oath that he will faithfully perform the duties of his office.

Upon the application of either party made at least ten days before the time of trial the court shall, and upon its own motion the court at any time may, appoint one of the inheritance tax appraisers provided for by law to appraise the property or the interest therein sold as of the time of sale. Such appraiser shall file his appraisal with the clerk and the same shall be admissible in evidence. Such appraiser shall take and subscribe an oath to be attached to the appraisal that he has truly, honestly and impartially appraised the property to the best of his knowledge and ability. Any appraiser so appointed may be called and examined as a witness by any party or by the court itself. The court must fix the compensation of such appraiser, not to exceed five dollars per day, and expenses for the time actually engaged in such appraisal, which may be taxed and allowed in like manner as other costs. Thereupon the court may render a money judgment against the defendant or defendants personally liable for the debt for not more than the amount by which the entire amount of the indebtedness due at the time of sale exceeded the fair market value of the real property or interest therein sold at the time of sale with interest thereon from the date of the sale; provided, however, that in no event shall the amount of said judgment, exclusive of interest after the date of sale, exceed the difference between the amount for which the property was sold and the entire amount of the indebtedness secured by said mortgage.

No person holding a commission from or under the mortgagee of the property mortgaged, or having a lien thereon, which commission or lien does not appear of record in the proper office at the time of the commencement of the action, need be made a party to such action, and the judgment therein rendered, and the proceedings therein had, are as conclusive against the party holding such commission, mortgage or lien as if he had been a party to such action.

If the court appoint a commissioner for the sale of the property, he must sell it in the manner provided by law for the sale of real property for the sheriff's execution; and the provisions of Chapter 1, Title IX, Part II, of this code are hereby made applicable to such sale by such commissioner, and the process therein given, and the duties therein imposed, on sheriffs are extended to such commissioner.

In all cases heretofore, now or hereafter pending in the courts of this State, in the event of the death, absence from the State, other disability or disqualification of the commissioner appointed to sell encumbered property, under the foregoing provisions of this section, the court may, from the beginning of the absence from the State, other disability or disqualification of the commissioner, appoint an agent to perform the duties of such commissioner, which are then to be performed in such action. The agent so appointed shall give the undertaking and take the oath hereinbefore provided to be given and taken by a commissioner, before expiring upon the discharge of his duties, and shall thereafter perform his duties with impartiality by the commissioner whom he is appointed to succeed, with like effect as if such duties had been performed by the commissioner.

If the land mortgaged consists of a single parcel, or two or more contiguous parcels, situated in two or more counties, the court may, in its judgment, direct the sale thereof to be sold in one of such counties by the sheriff, notwithstanding an order in the case may be, and upon such proceedings, and with like effect as if the whole of the property were situated in that county.

#### URGENCY CLAUSE

SEC. 4. This act is hereby declared to be an emergency measure necessary for the immediate preservation of public peace, health and safety within the meaning of section 1 of Article IV of the Constitution of the State of California, and shall take effect immediately. The following is a statement of the facts constituting such urgency:

For the purpose of expediting the necessary testing and checking of cattle shipped into the State and entering tuberculosis control areas, and saving the expense incident to following up cattle after the thirty-day period sections 9 and 12 in the act cited in the title hereof must be amended. These same amendments are being made in the Agricultural Code but can not become effective sufficiently soon therein to make possible a saving of several thousands of dollars in special retests under the provisions of the present act.

Also, there exists at the present time within California certain tuberculosis control areas established pursuant to the provisions of the act cited in the title hereof, which areas, in consequence of the reduction in funds available for this work, must be correspondingly reduced. The provisions of the Bovine Tuberculosis Law are mandatory with reference to identification for slaughtered carcasses when those are encountered through inspection and test in an established tuberculosis control area. It is vital to the welfare of the State that money be withdrawn when the work can not be continued in order not to interfere with less drastic tuberculosis suppressive measures under authority of other laws. It therefore becomes imperative that an authority be given to the Department of Agriculture such as is contained within the proposed new section and to govern conditions requiring this emergency legislation until such time as the provisions of the Agricultural Code, Chapter 25, Statutes of 1933, or acts amendatory thereof, become effective.

#### URGENCY CLAUSE.

SEC. 2. This act is declared to be an urgency measure deemed necessary for the immediate preservation of the public peace, health and safety within the meaning of section 1 of Article IV of the Constitution, and as such it shall take effect immediately.

The following is a statement of the facts constituting such necessity: According to the estimate of the State Unemployment Commission, the number of persons affected by unemployment in California is one million five hundred eighty-nine thousand, which includes seven hundred thousand unemployed and eight hundred eighty-nine thousand dependents. As a result of this condition of joblessness, poverty, destitution, and pauperism have become a grave menace to the health, safety, morals, and welfare of the people of the State. Because hundreds of thousands of self-respecting citizens, able and willing to work, are unable to find employment to support themselves and their families, it is essential that a policy of work-spreading and a shorter work week should be put into effect at once. The State, by adopting such a policy for the period of the present emergency, can furnish employment to many unemployed workers and can thereby give added impetus to the practice of work-spreading in private industry. This act constitutes one of the means of adopting such a policy and therefore should be adopted as an emergency measure.

## COMMUNICATION.

The following communication was received, read, and ordered printed in the Journal:

COLUMBIA UNIVERSITY, CITY OF NEW YORK,  
SCHOOL OF BUSINESS, July 11, 1933.

Hon. Hubert C. Jones, Veterans Building, San Jose, California.

MY DEAR SENATOR JONES: I was pleased to receive your letter of June 29th and 30th telling of the favorable vote on the constitutional amendment. I have read the amendment carefully. On the whole it seems to me to be a long step forward in clearing the Constitution of hampering restrictions. There are elements in the amendment concerning the effects of which I am decidedly dubious. I refer particularly to the percentage limitations on increases in expenditures and the 25 per cent property tax limitation. Experience elsewhere affords little grounds for optimism with respect to the efficiency and workability of such limitations. I can, however, recognize the political considerations which undoubtedly influenced the decision to include them.

The main accomplishments of the amendment are the abandonment of the obsolete summation-of-sources arrangement and the opportunity opened to proceed with the development of the tax system along logical and sound lines. But after all it is only an opportunity. Everything depends upon the character of the legislation enacted under the new constitutional powers.

As I read the amendment it seems to authorize the Legislature entirely to change the form of the franchise tax on business corporations. I have no information regarding the intent of those responsible for tax policy but I am wondering whether something in the way of fundamental change in the franchise tax measured by net income is contemplated. Adjustment of the rate and the abolition of that abortion, the real estate offset, if indeed that still remains, are certainly indicated. However, I am reluctant to see a change in the tax base from net income to some other base, such as property or some approximation of gross income. Such action would, in my opinion, be unfortunate. Our recent studies in New York (see New York Legislative Document, 1932 No. 77) indicate the unwisdom of this step and, in spite of the financial pressure here, which has led us most reluctantly to impose a temporary one per cent retail sales tax, with exemptions of food, it has been decided not to change the base of the franchise tax. There is, of course, in addition, the danger of invalidating the tax on banks if some other basis than net income is selected and the bank tax, with the real estate offset eliminated, should become a substantial revenue producer.

With respect to sources of State revenue the sensible course under the existing circumstances would seem to me to be to eliminate the tax on intangible personal property and to substitute a moderate personal income tax, compensating the localities for any loss in revenue involved in this change by keeping the proposed new State rate on real property as low as possible. The sales tax deserves only to be regarded as preferable to bankruptcy. As a permanent element in the State tax system for the relief of real estate, it is a snare and a delusion. The time has come in California to establish the personal income tax as a permanent element in the system. If its yield is insufficient the necessary supplement (such perhaps as a retail sales tax) should be regarded merely as a temporary expedient, indefensible except on grounds of fiscal exigency and to be abandoned as soon as practicable.

I am having sent to you a copy of the draft of a model personal income tax as formulated by a committee of the National Tax Association and also a copy of the New York State Income Tax Law. There are many things about the New York law which I should like to see changed. For example, the personal exemptions are too high, some of the deductions too liberal and the rate scale is unnecessarily crude in its progression. However, it is superior in its general structure as a statute to either the Wisconsin or the Massachusetts law. If you will send me a copy of the draft of the California Income Tax Bill, I shall be glad to give you any comments and suggestions in detail.

With the personal income tax now in force in half the States of the Union, the experimental stage is passed and the argument that California would put herself at a competitive disadvantage by adopting it has lost practically all its force. That there is no room for State taxes in the presence of the Federal tax is disproved by New York's successful imposition of a rate scale running to 6 (next year 7) per cent and Wisconsin's scale amounting to about 16 per cent. California could very well avail herself of a rate scale amounting to 6 per cent without anticipating unfavorable effects from the competition of other States.

Aside from the ground of fiscal necessity, the sales tax can be urged with sincerity only by those who favor weighting the tax burden very heavily against, rather than in favor of, those of low and moderate incomes. All the figures we have show that the little man spends an enormously larger percentage of his income on food and clothing than the rich man and these are the items which are most heavily hit by a nonselective retail sales tax at a uniform rate. Certainl

the sales tax can not be supported on the ground that it favors the economic development of the State. As a matter of fact, it tends reasonably to increase the cost of living and of doing business. Moreover, with the individual States important to impose the tax on business crossing State lines, the tax operates as a distinct burden on interstate or out-of-state enterprises. Its alleged unadministrative simplicity is greatly exaggerated, particularly if there are any exemptions whatsoever, and without the enactment of final the adoption of such a tax in a time of widespread unemployment is the height of folly. The suggested California tax of 2 per cent with no exemption of food would be a brutal tax unparalled anywhere, to my knowledge, except in Michigan, where such a measure has just gone into effect under conditions approaching hysteria. The estimate of \$110,000,000 to \$125,000,000 as the probable yield must relate to the business. As an actual figure it is fantastic.

Very truly yours,  
(Signed)

## MESSAGES FROM THE GOVERNOR.

The following messages from the Governor were received, read, and ordered printed in the Journal:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE,  
SACRAMENTO, June 16, 1933.

*To the Honorable Members of the Senate, California State Legislature.*

SIRS: I herewith return, without my signature, Senate Bill No. 1194.

This is a bill to pay the claim of Peat Humm Company against the State of California, in the sum of \$1,258.85. I am informed that this claim was presented to the Board of Control, and was disallowed by that board.

Respectfully submitted,

JAMES ROLPH, JR., Governor of California.

Also:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE,  
SACRAMENTO, June 5, 1933.

*To the Honorable Members of the Senate, California State Legislature.*

I herewith return, without my signature, Senate Bill No. 992.

This bill seeks to amend a section of the Agricultural Code that has already been amended by Senate Bill No. 982. As Senate Bill No. 982 has already been signed, Senate Bill No. 992 is not necessary.

Respectfully submitted,

JAMES ROLPH, JR., Governor of California.

Also:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE,  
SACRAMENTO, June 5, 1933.

*To the Honorable Members of the Senate, California State Legislature.*

SIRS: I herewith return, without my signature, Senate Bill No. 987.

Senate Bill No. 987 seeks to authorize a county to advance money to the State for the purpose of conducting crop paces when there is an agreement between the board of supervisors and the State Department of Agriculture. I have no objection but approve the purposes for which the bill was introduced.

However, there is a technical error in the bill in that section 128 instead of section 149 is the section amended. To sign the bill would be to wipe out the existing provisions of section 128, and to duplicate the existing provisions of section 149. From a study of the two sections of the Agricultural Code, it appears obvious that the authors of the bill had no such intention.

Respectfully submitted,

JAMES ROLPH, JR., Governor of California.

Also:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE,  
SACRAMENTO, June 14, 1933.

*To the Honorable Members of the Senate, California State Legislature.*

SIRS: I herewith return, without my signature, Senate Bill No. 867.

This bill is intended to regulate the use of publicly-owned vehicles, and gives the State Board of Control authority to suspend from the public service without pay any employee of the State who uses a State-owned motor vehicle for purposes other than official business.

The bill, on the subject covered, supersedes and repeals by implication the benefits granted to employees of the State under the provisions of section 14 of the Civil Service Act, which provides that prior to disciplinary action being taken, an employee must be charged, given opportunity to answer and defend, and otherwise have a full hearing at which he is entitled to be confronted by the witnesses against him. There is in the bill presented for my signature no provision requiring that a hearing be given an employee, although the bill attempts to authorize the State Board of Control to require any employee to appear before it upon any sort of report, anonymous or otherwise, apparently at the employee's own expense, without notice as to what charges are preferred against him or by whom.

I see no justification for departing from the reasonable requirements of the Civil Service Act in the matter of disciplinary action against employees; and to give any board the arbitrary and absolute authority, intended to be granted to the State Board of Control by this bill, would be capable of great abuse.

Furthermore, the bill is extremely ambiguous in the definition of the phrase "publicly owned motor vehicles." According to the bill, those words shall be construed to "mean and include all vehicles owned by the State, or by any county, city and county, municipality, district or other public agencies." This definition is either meaningless, or is an attempt to grant to the State Board of Control the power to regulate the employees of counties, cities, districts and other political subdivisions in the matter of the use of "publicly owned vehicles." I can see no justification for

compelling the employees from the county of Siskiyou on the north to the city of San Diego on the south to attend before the Board of Control at Sacramento, at their own expense, in a matter which is so manifestly a local affair, to defend against charges which might be introduced and brought for the purpose of causing trouble, expense and embarrassment to the employee.

Respectfully submitted

JAMES ROLPH, JR., Governor of California.

STATE OF CALIFORNIA, GOVERNOR'S OFFICE,

SACRAMENTO, June 15, 1933.

To the Honorable Members of the Senate, California State Legislature.

Sirs: I herewith return, without my signature, Senate Bill No. 576.

This bill amends and partially repeals the Political Code relating to settlements between county treasurers and the State Controller. The chief change made by this bill is in the repeal of section 3876 of the Political Code, which allows the expenses of county treasurers in making settlements with the State.

I have received protests to this bill from the county treasurers of the State, based upon the fact that under the provisions of section 3876 of the Political Code, the county treasurer will still have to appear at the office of the State Controller, and then and there settle with the State Controller. The bill, however, would not allow the county treasurer these expenses for such appearances. Although that is well required under the law. This would necessarily mean that the treasurers would have to pay this money from their own pockets, and I am sure this was not the intent of the Legislature.

Respectfully submitted

JAMES ROLPH, JR., Governor of California.

STATE OF CALIFORNIA, GOVERNOR'S OFFICE,

SACRAMENTO, June 10, 1933.

To the Honorable Members of the Senate, California State Legislature.

Sirs: I herewith return, without my signature, Senate Bill No. 318.

Senate Bill No. 318 attempts to amend section 144 of the Vehicle Code. The bill containing the Vehicle Code, that is the Senate, 1931 act of Senate Bill No. 318 seeking to amend section 144 of the Vehicle Code, has not passed the Legislature. Senate Bill No. 318 is entirely ineffective for its purpose.

Respectfully submitted

JAMES ROLPH, JR., Governor of California.

Also:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE,

SACRAMENTO, June 12, 1933.

To the Honorable Members of the Senate, California State Legislature.

Sirs: I herewith return, without my signature, Senate Bill No. 161.

This bill amends section 4276 of the Political Code, relating to the payment of official fees provided for in sections 24 to 27, inclusive, of the Water Commission Act. The effect of the bill is to provide an exemption for payment of fees by public districts for filing documents or applications under the provisions of the Water Commission Act.

I am advised by the chief of the Director of Finance that the bill will operate to increase the duties and expenses of the division, and at the same time lessen revenues received thereby, and encourage the filing and refiling of permits merely because of the fact that no fees will be charged therefor. The fees are at present payable into the general fund, and the proposed exemption will materially lessen revenues derived from water applications and permits.

Respectfully submitted

JAMES ROLPH, JR., Governor of California.

Also:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE,

SACRAMENTO, May 29, 1933.

To the Honorable Members of the Senate, California State Legislature.

I herewith return, without my signature, Senate Bill No. 780.

This bill provides that the appropriation made in 1931 for Santa Ana River flood control work shall be used for relief of unemployment in connection with such work and that said sum so appropriated shall be expended for any of such purposes when and if funds are procured of an equal amount from the Reconstruction Finance Corporation.

I am advised by the Director of Finance that this money should be reverted to the general fund as it is not being used as originally intended and is needed to aid the general fund of the State. This bill has the effect of giving this money to San Bernardino County if matched by Reconstruction Finance Corporation funds, which the State must repay.

My return of the bill is made without prejudice to a future enactment, when the Legislature returns in July, of a similar measure.

Respectfully submitted,

JAMES ROLPH, JR., Governor of California.

STATE OF CALIFORNIA, GOVERNOR'S OFFICE,

*To the Honorable Members of the Senate, California State Legislature.*

SIRS: I herewith return, without my signature, Senate Bill No. 97.

The provisions of this bill permit the payment of special assessments levied to pay the principal and interest due on bonds of districts formed under the provisions of the Acquisition and Improvement Act of 1925 by surrender of matured bonds or matured interest coupons.

I approve the principles of the bill, and have already signed Assembly Bill No. 379, which is an identical measure, with the exception that in Assembly Bill No. 379, provisions are also made for the payment of assessments on bonds of districts formed under the Road District Improvement Act of 1907.

As Assembly Bill No. 379 is broader in its scope, the enactment of Senate Bill No. 97 would serve no effective purpose.

Respectfully submitted,

JAMES ROLPH, JR., Governor of California.

SIRS: I herewith return, without my signature, Senate Bill No. 124.

This bill amends certain sections of the School Code, relating to tuition charges for adult attendance at night schools. At the present time, the governing board of a school district has permissive power to fix the fee of \$6 per term per pupil in the case of day or evening classes for adults, other than classes maintained in English and citizenship for foreigners, and classes in elementary subjects taught below the seventh grade.

The amendment made by the bill in place of the optional fee, requires a compulsory fee of not less than \$1. This bill, I believe, would be the initial step in starting to place a tax on education. The present optional authority vested in trustees of school districts is sufficient, I believe, to assist districts in need of funds to carry on adult education work, but to charge a compulsory fee, whether necessary or not, could only have the effect of retarding educational work.

Respectfully submitted,

JAMES ROLPH, JR., Governor of California.

GOVERNOR'S VETO NOT SUSTAINED.

## MESSAGE FROM THE GOVERNOR

The following messages from the Governor were received and read:

## STATE OF CALIFORNIA, GOVERNOR'S OFFICE.

SACRAMENTO, June 12, 1933.

To the Honorable Members of the Senate, California State Legislature.

SIRS: I herewith return, without my signature, Senate Bill No. 168.

This bill tends to create a law not providing that in making contracts of the first class, an actual finger treatment shall be made at the discretion of the doctor.

This bill was apparently introduced upon the assumption that Senate Bill No. 911 of Assembly Bill No. 1091 which contained language identical with sentence above would pass. However, these bills were dropped, and therefore the signing of Senate Bill No. 168 would be of no effect and possibly might cause confusion in the law relating to regulation of doctors, as there is no mention of the above plan.

Respectfully submitted,

JAMES ROLPH JR., Governor of California.

## SUSTAINED GOVERNOR'S VETO.

Message from the Governor announcing his objections to Senate Bill No. 168 read.

SACRAMENTO, June 5, 1933.

To the Honorable Members of the Senate, California State Legislature.

SIRS: With the consent of the Senate, I herewith return, Senate Bill No. 203.

Senate Bill No. 203 already contains portions of the Fish and Game Code, which relate to stream bass. The bill seems to contain portions which are not covered by Assembly Bill No. 1545. I have therefore signed Assembly Bill No. 1545 and to my sign, Senate Bill No. 203 would nullify the provisions of that enactment. The author of Senate Bill No. 203 has a verbal on file at which he suggests that I follow this procedure.

Respectfully submitted,

JAMES ROLPH JR., Governor of California.

## STATE OF CALIFORNIA, GOVERNOR'S OFFICE.

SACRAMENTO, May 23, 1933.

To the Honorable Members of the Senate of the California State Legislature.

I herewith return, without my signature and without prejudice, Senate Bill No. 252.

This bill amends section 939 of the Code of Civil Procedure and the amendment intends to provide for a time within which an appeal from a judgment may be taken.

At the present time one sentence of the law reads as follows: "No appeal, however, shall be dismissed on the ground that it was taken after the rendition of such judgment or order and before formal entry."

This sentence has been changed to read as follows: "No appeal, however, shall be dismissed on the ground that it was taken after the entrance of such judgment or order and before formal entry."

The change of the word "rendition" to "entrance" has made this important provision of law meaningless.

I am convinced that the change was inadvertent and I therefore return the bill.

Respectfully submitted.

JAMES ROLPH, JR., Governor of California.

This bill seeks to enact a new statute providing for some difference in the government of irrigation districts of the "first class." The bill apparently was predicated on the assumption that Senate Bill No. 911 or Assembly Bill No. 1971, which classified irrigation districts in classes, would pass. However, these bills were defeated, and therefore to sign Senate Bill No. 268 would be of no effect, except possibly to

cause confusion in the law relating to irrigation districts, as there is no irrigation district of the "first class."

STATE OF CALIFORNIA, GOVERNOR'S OFFICE

SACRAMENTO, JUNE 12, 1933

To the Honorable Members of the Senate, California State Legislature.

I herewith return, without my signature, Senate Bill No. 411.

This bill provides that where property has been decided for nonpayment of taxes or assessments to the State and also to a city or other public corporation, the local governmental unit may enter into an agreement with the board of supervisors of the county for the purchase of the property held by the State, subject to the approval of the State Controller.

Assembly Bill No. 562, which I am also returning without my signature, would provide that whenever property has been decided to the State and has also been decided to a political subdivision or State taxing agency for delinquent taxes, the right of possession lies with an irrigation district, municipality, or county, dependent upon its location.

The rights in the land of the various public agencies or counties would be uncertain and the law relating thereto would become ambiguous if both of these bills became law, and if it is desirable that the benefits provided by one or both bills be secured, legislation designed to that end should be worked out which will not, at the same time, make the law relating thereto uncertain.

I have already signed Assembly Bill No. 822 which postpones until some time in August the dealing of property to the State for nonpayment of taxes, so that

there will be no change in the situation relating to such land until after the Legislature reconvenes.

At that time, if it is desired, a measure could be worked out, and by means of an urgency clause therein, made effective in time to eliminate any delay which might result from the return of this bill.

Respectfully submitted.

JAMES ROLPH, JR., Governor of California.

*To the Honorable Members of the Senate, California State Legislature.*

SIRS: I herewith return, without my signature, Senate Bill No. 435.

This bill repeals sections of the School Code authorizing conventions of county and city school superintendents. The statute repealed is merely permissive in form, authorizing the Superintendent of Public Instruction to call such a convention when he deems it to be advisable. These provisions are of long standing and the cost is relatively small as far as individual counties are concerned, and such conventions furnish the only opportunity for complete discussion of county educational problems and policies.

The bill providing for the repeal of the convention of principals has already been signed. Principals, however, have an opportunity to assemble for the discussion of problems that is not available to the county superintendents. If, in the interest of economy, it is necessary that the calling of such annual conventions should be suspended, the Superintendent of Public Instruction has this authority. I believe, however, it would be a mistake to wipe out of the statute books the authority of the Superintendent of Public Instruction to call conventions for this worthwhile and necessary purpose.

Respectfully submitted.

SIRS: I herewith return, without my signature, Senate Bill No. 440.

This bill repeals Section of the School Code authorizing the holding of annual teachers' institutes. Teachers' institutes are a recognized institution in most States of the Union. They have almost been considered as essential to the proper improvement of education. The cost of the institute for all counties, except Los Angeles, is less than \$20,000 a year for the entire State. The cost in Los Angeles County is in the neighborhood of \$15,000 a year for the entire county.

I do not believe that the relatively small saving that would be accomplished by the abolition of these excellent institutions will compensate for the loss which would result in removing from teachers the inspiration and encouragement to better service which the annual assembly in Monterey has provided.

Respectfully submitted,

STATE OF CALIFORNIA, GOVERNOR'S OFFICE,

SACRAMENTO, June 13, 1933.

*To the Honorable Members of the Senate, California State Legislature.*

SIRS: I herewith return, without my signature, Senate Bill No. 468.

This bill amends section 3714 of the Political Code, commonly known as the "County Budget Act," and section 4041.2 of the same code which relates to the powers of boards of supervisors. This bill was introduced, and has as its chief more supervision and audit of fiscal affairs of counties for control of the county budget and I am in accord with any steps that can be taken to accomplish this result.

I must, however, return this bill without approval, in view of certain provisions therein, which would handicap county officers rather than assist them in the preparation of a county budget.

Paragraph 3 of the bill provides for the adoption of a tentative budget on or before the first day of July of each year, and the same paragraph requires that such tentative budget shall be printed or mimeographed not later than July 31. I am informed by the county auditor that in each of the larger counties of the State this will be an impossibility, as in Los Angeles County, for example, compilation and printing of a tentative budget requires more than three weeks, and in Yameda County, it requires at least a week.

The section of the Political Code repealed, as it exists, permits the board of supervisors to examine and audit the accounts each year. Section 2 of the present bill repeals this section, which is the only legal authority for the Los Angeles County Board of Supervisors to make an annual audit. Therefore, if the bill is signed, the board of supervisors of Los Angeles County would be divested of any authority to make an annual audit, inasmuch as the auditor of that county informs me the charter of the county does not provide for such an audit. Another conspicuous mechanic of the bill is that paragraph 5 requires that the tax rate be fixed not later than the first day of August of each year. The present law allows until the first day of September for the fixing of this rate. Under other provisions of the Political Code, the county board of supervisors is to sit as a county board of equalization in order to complete its work as an equalization board on or before the third Monday in July. However, section 3705 of the Political Code authorizes the period for equalization to be extended for 20 days. In cases, therefore, where a 20-day extension was granted, the board of supervisors would not have completed its duties as a county board of equalization at the time required under paragraph 5, that is, the first day of August, to fix the tax rate.

These inconsistencies in the bill and the present law I believe would render the bill impracticable and unworkable. If the dates for the performance of official acts are revised to conform to existing laws in relation to other tax matters, there would be no objection to the bill.

Respectfully submitted.

*To the Honorable Members of the Senate of the California State Legislature.*

I herewith return, without prejudice, and without my signature, Senate Bill No. 476.

This bill seeks to amend sections 3804 and 3819 of the Political Code, which sections now relate to the refund of taxes paid upon void assessments and suits for the recovery of taxes paid under protest. The amendments to the sections under the bill would allow the boards of supervisors of a county to refund taxes, penalties

or costs when an assessor had made an illegal or erroneous assessment, although no application for equalization has been made to the supervisors. The bill by the amendments would allow assessors an action to recover taxes paid under protest upon the grounds that an assessment was erroneous, although no application for equalization of the assessment had been made.

It has been represented to me by numerous district attorneys and boards of supervisors (although taxpayers are proponents of the bill) that if this bill is enacted into law it would result in extensive litigation and might possibly disrupt fiscal affairs to the detriment of county government. If legislation of this kind is necessary the Legislature when it reconvenes may grant a hearing to all parties who desire to be heard.

I have conferred with the author of this measure and he concurs in the views expressed in this message.

Respectfully submitted,

(Signed)

JAMES ROLPH, JR., Governor of California.

SIRS: I herewith return, without my signature, Senate Bill No. 489.

Senate Bill No. 489 seeks to amend a section of the Fish and Game Code for the purpose of including in the section the right to fish for steelhead trout between May 1st and December 31st in that portion of the Trinity River Fish and Game District 1.

The Fish and Game Commission has no objection to the provisions of this contemplated amendment, but section 613 of the Fish and Game Code has already been amended by Assembly Bill No. 323, which is now Chapter 302 of the Statutes of 1933. The changes made by Chapter 302 are entirely different from those sought to be made by Senate Bill No. 489, and to now sign Senate Bill No. 489 would nullify the provisions of Chapter 302.

STATE OF CALIFORNIA, GOVERNOR'S OFFICE,  
SACRAMENTO, May 18, 1933.

*To the Honorable Members of the Senate, California State Legislature.*

I herewith return, without my signature, Senate Bill No. 504.

This bill amends certain sections of the Political Code, relating to the powers of the boards of supervisors and adds six new sections. The sections amended and added grant supervisors powers of a very extensive nature. Among the powers intended to be granted to the board of supervisors under the provisions of the bill are those contained in section 7 which adds section 4041.29 to the Political Code giving boards of supervisors power to order work and improvements upon rivers, bays, inlets, inland waters, and in and upon tidelands and submerged lands held by the State of California by virtue of its sovereignty.

The sections mentioned place more power in the boards of supervisors with respect to the administration and jurisdiction of tidelands and submerged lands of the State of California than is contained in all other State, county or city agencies. So unlimited are the powers granted to the boards of supervisors under the terms of the bill that the existing powers of the various boards of harbor commissioners of San Francisco, might be annulled with respect to tide and submerged lands used in connection with the harbors of the State. The bill might seriously affect every port in the State of California.

This section also authorizes the boards of supervisors to call an election of voters of the county to authorize the creating of bonded indebtedness "for any other works, improvements, and or purposes," other than that specifically enumerated in the section. This section when read in conjunction with the powers granted under section 4041.32, which authorizes the board of supervisors "to acquire, construct, equip, and maintain buildings and plants, tanks, reservoirs, pumps, pipe lines, conduits and implements," might be construed to authorize the supervisors to drill for oil on the tide and submerged lands of the State. Each time that a proposal has been submitted to the electorate of the State intended to allow drilling upon the tide and submerged lands, the people of the State have decisively repudiated such a grant of power.

The section of the act referred to would definitely remove from the State the administration of sovereign tide and submerged lands as effectually as though the State surrendered its 1200 miles of coast line to the boards of supervisors of the coast counties.

Respectfully submitted.

This bill provides: "no monies shall be used for the support of the Division of Supervision of Petroleum and Gas, except such as shall be derived from fees exacted by the said division."

The division at the present time is chiefly supported by "charges," specified in sections 25 and 26 of the act amended which "charges" are not "fees," but taxes. Some "fees" are collected by the sales and recordation of maps and plats, but if the division were forced to rely upon these "fees," it could not function, as they are relatively nominal.

Undoubtedly, it is the intention that the division be supported by the "charges," as well as "fees," which it collects, all of which constitute a special fund for the support of the division.

As no appropriation of general fund money was made in the budget or has been used in the present biennium for the support of the division, and as the enactment of this bill might raise a question of construction as to the right of the division to use the "charges" it collects, I am returning the bill.

This bill amends a section of the Narcotic Act, with respect to the question of appointment of employees. The same subject matter was covered in Assembly Bills Nos. 317 and 318, which have already been chaptered, and is inconsistent with the present bill. The bill was introduced, I am informed, at the request of the Department of Finance. Inasmuch as it is in conflict with bills already chaptered, it is the suggestion of that department that the bill be returned.

Respectfully submitted.

JAMES ROLPH, JR., Governor of California.

SACRAMENTO, June 16, 1933.

To the Honorable Members of the Senate, California State Legislature.

SIRS: I herewith return, without my signature, Senate Bill No. 1011.

This bill removes the section of the Penal Code, relating to the office of the Director of the Department of Penology. At the present time, this office is to be appointed by some official not in the chain of the different divisions of the department. The bill requires that the appointment of the Board of Prison Directors shall be an office director of the department. The present budget carries no directorship duty in the budget of the Department of Penology for the duty of the director. The only present change, therefore, in the sense of the right of nomination of the director. There may arise a real economy which would require that the heads of the Department of Penology be administered by a director appointed with a freedom of selection and as there is no present expense involved, I believe the right of nomination should be preserved.

Respectfully submitted

JAMES ROLPH, JR., Governor of California.

This bill was apparently introduced for the purpose of making a change in the salary of the superior court judge of San Luis Obispo County. However, the bill makes no change in the existing law, and to sign the bill would be an idle act.

SIRS: I herewith return, without my signature, Senate Bill No. 1101.

This bill amends section 7 of the act relating to the employment of assistants by the Insurance Commissioner for the handling and liquidation of insolvent insurance companies. Under the provisions of the bill, the power of appointment of attorneys to represent the Insurance Commissioner for the conduct of business of companies in liquidation is transferred from the Insurance Commissioner to the Attorney General.

Under the provisions of section 2 of the act amended, the Insurance Commissioner is charged with the responsibility of conducting the affairs of insurance companies going through insolvency. In the event of any illegality of the conduct of such business of the transactions of the company, the Insurance Commissioner would presumably be personally liable as well as liable on his official bond. The services rendered by the attorney in such cases are those normally rendered to a trustee in bankruptcy or a receiver, and are rendered for the purpose of properly handling the business affairs of a private concern, and do not involve any question concerning the conduct or administration of a State office. As the Insurance Commissioner, in the last analysis, is the person primarily responsible, and it is he who must place reliance upon the man appointed, I consider that to enact this measure would be to handicap the Insurance Commissioner in the proper discharge of his functions.

Respectfully submitted,

(Signed)

JAMES ROLPH, JR., Governor of California.

## PETITION.

The following petition, offered by Senator Fellom, was ordered printed in the Journal:

CITY OF BERKELEY, CALIFORNIA, July 17, 1933.

*Senator Roy Fellom, State Capital, Sacramento, California.*

DEAR SENATOR: By a vote of more than two to one, Berkeley amended its charter to allow the sale of beer in this city. Such sale, however, is still prohibited by the provisions of section 172 of the Penal Code.

This is discriminatory and is unfair to our local merchants. The city council therefore voted last Tuesday to instruct our city manager to use his best efforts to have section 172 amended.

As a member of the Berkeley city council, I wish to call your attention to this fact and to personally urge you to vote for an amendment to section 172 which will permit the sale of beer in this city.

Respectfully yours,

EDWARD A. MARTIN.

## MESSAGES FROM THE GOVERNOR.

The following messages from the Governor were received and read:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE,

SACRAMENTO, June 15, 1933.

*To the Honorable Members of the Senate, California State Legislature.*

SIRS: I herewith return, without my signature, Senate Bill No. 576.

This bill amends and repeals sections of the Political Code relating to settlements between county treasurers and the State Controller. The chief change made by this bill is in the repeal of section 3876 of the Political Code, which allows the expenses of county treasurers in making settlements with the State.

I have received protests to this bill from the county treasurers of the State, based upon the fact that under the provisions of section 3876 of the Political Code, the county treasurer will still have to appear at the office of the State Controller, and then and there settle with the State Controller. The bill, however, would not allow the county treasurers their expenses for such appearances, although that is still required under the law. This would necessarily mean that the treasurers would have to pay this money from their own pockets, and I am sure this was not the intent of the Legislature.

Respectfully submitted,

JAMES ROLPH, JR., Governor of California.

The question being: Shall Senate Bill No. 576 become a law notwithstanding the objections of the Governor?

STATE OF CALIFORNIA, GOVERNOR'S OFFICE,

SACRAMENTO, June 14, 1933.

*To the Honorable Members of the Senate, California State Legislature.*

SIRS: I herewith return, without my signature, Senate Bill No. 867.

This bill is intended to regulate the use of publicly owned vehicles, and gives the State Board of Control authority to suspend from the public service without pay any employee of the State who uses a State-owned motor vehicle for purposes other than official business.

The bill, in the subject covered, supersedes and repeals by implication the benefits granted to employees of the State under the provisions of section 14 of the Civil Service Act, which provides that prior to disciplinary action being taken, an employee must be charged, given opportunity to answer and defend, and otherwise have a full hearing at which he is entitled to be confronted by the witnesses against him. There

s in the bill presented for the committee no provision requiring that a hearing be given an employee. Although the bill attempts to authorize the State Board of Control to require any employee to appear before it upon any sort of report, accusation or otherwise, apparently at the employee's own expense, without notice as to what charges are preferred against him or by whom.

I take no particular interest described from the numerous requirements of the Civil Service Act in the matter of disciplinary action against employees, and he gives me some of the arbitrary and capricious authority, intended to be granted to the State Board of Control by this bill, would be capable of great abuse.

Furthermore, the bill is extremely onerous in the penalties of the proposed publicly owned motor vehicles. According to the bill, those vehicles shall be constructed to insure some twelve (12) miles per hour by the State at 17 and county, city and county, municipalities, counties or other public agencies. This provision is either meaningless, or is an attempt to grant to the State Board of Control the power to regulate the employees of counties, cities, districts and other political subdivisions in the matter of the use of publicly owned vehicles. I can see no justification for compelling the employees of the county of Siskiyou on the north to the city of San Diego on the south to attend before the Board of Control at Sacramento, at their own expense, in a matter which is so peculiarly a local affair, to defend against charges which might be unfounded and brought for the purpose of causing trouble, expense and embarrassment to the employee.

Respectfully submitted

JAMES ROLPH, JR., Governor of California

## MESSAGES FROM THE GOVERNOR

The following messages from the Governor were received and read:

## STATE OF CALIFORNIA, GOVERNOR'S OFFICE,

SACRAMENTO, June 12, 1933.

To the Honorable Members of the Senate, California State Legislature:

SIRS: I herewith return, without my signature, Senate Bill No. 161.

This bill amends section 4295a of the Fish and Game Code, relating to the payment of official fees provided for in sections 24 to 37a, inclusive, of the Water Commission Act. The effect of the bill is to provide an exemption for payment of fees by public districts for filing documents or applications under the provisions of the Water Commission Act.

I am advised by the office of the Director of Finance that the bill will operate to increase the duties and expenses of the division, and at the same time lessen revenues received thereby, and encourage the filing and piling of permits merely because of the fact that no fees will be charged therefor. The fees are at present payable into the general fund and the proposed exemption will materially lessen revenues derived from water applications and permits.

Respectfully submitted

JAMES ROLPH, JR., Governor of California.

**SIR:** I herewith return, without my signature, Senate Bill No. 987.

Senate Bill No. 987 seeks to authorize a county to advance money to the State for the purpose of eradicating crop pests when there is an agreement between the board of supervisors and the State Department of Agriculture. I have no objection but approve the purposes for which the bill was introduced.

However, there is a technical error in the bill in that section 128 instead of section 149 is the section amended. To sign the bill would be to wipe out the existing provisions of section 128, and to duplicate the existing provisions of section 149. From a study of the two sections of the Agricultural Code, it appears obvious that the authors of the bill had no such intention.

Respectfully submitted.

JAMES ROLPH, JR., Governor of California.

STATE OF CALIFORNIA, GOVERNOR'S OFFICE,  
SACRAMENTO, July 17, 1933.

*To the Honorable Members of the Senate and Assembly, State of California.*

You are assembled in session after a recess of several weeks to consider many important matters of legislation to be concluded before adjournment. Among these is the consideration of Assembly Bill No. 700 which the Governor returned to the Assembly without his signature. In the veto message of this bill a number of reasons of major importance were given for its veto. However, since this matter so greatly affects the welfare of the State employees and through them the welfare of the State and its citizens, and since conditions throughout the State and the Nation have experienced further change, giving added emphasis to the support of my veto of this measure, I am moved to send you this message.

In my veto message of June 16th I stated:

"The effect of the bill, if approved, would be disastrous to the officers and employees affected and detrimental to the welfare of the State. Facing the practical certainty of a devalued dollar, and with a growing number of private employers heeding the appeal of the President of the United States by raising the salaries and wages of their employees, the public servants of this State would, as a result of this bill, suffer an altogether tragic loss of purchasing power. A return to even practically normal economic conditions prior to July 1, 1935, would necessarily cause an exodus of underpaid State employees into more lucrative private employment.

The State of California can ill afford the loss of all this special training and experience, and should not risk it."

As conditions have developed this prediction has become a reality.

In my career in public life I have consistently advocated fair and adequate pay for all workers both in public and in private employ. In my opinion our whole economic structure will fail if we can not provide sufficient compensation for our workers so that they may maintain a decent standard of living, not just the wherewithal to provide a bare sustenance, but a standard of living in keeping with the

ideals of our State and Nation, and with sufficient reserves to make possible saving to meet unforeseen accidents of life.

We find our Nation and our State at present suffering from economic distress and unemployment, and we find the President and the Congress of the United States making herculean effort to produce industrial and economic recovery. I know that the Legislature of the State of California will do everything reasonable to cooperate in this endeavor. You must recognize, as the President of the United States and his advisers have already acknowledged, that recovery from the present distress and unemployment can be accomplished only by increasing the purchasing power of the people of this country. President Roosevelt has made repeated appeals to industry on behalf of the workers, stating that wages be increased. Already a long list of corporations and private business have increased wages in accordance with this request, influenced by the increase in commodity prices. This is common knowledge and I will not burden you with their testimony.

Any moves toward reducing salaries and wages would be in direct opposition to the tendency of the times and the kind of aid which is being rendered to business from the depression. Such reduction would result in further distress, further unemployment, and further stagnation of business. What is true of private enterprise is true in government and in fact government should lead the way.

It is in line with these principles that I have failed to approve Assembly Bill No. 700 which made effective most drastic reduction in the pay of State employees. The proposal to reduce the compensation of State workers in the manner provided by this bill is most inopportune in light of the national endeavor to increase the purchasing power of the people and in light of the rapidly increasing commodity prices of articles which the workers must buy.

Allow me to elaborate that consideration being changed since this bill was introduced into the Legislature and that the President has made known before you, at a time when our leader in Washington, President Roosevelt, is willing upon conditions to increase pay for a most important factor in the national recovery program. I have observed with pleasure many companies of our great (financial and financial) organizations to our President's appeal.

The State of California is already the recipient of large sums from the Federal government, granted with a view to creating employment and aiding industrial recovery. This great State, which takes advantage of such contributions, should be one of the first to set an example in responding to the appeal with the recovery program and should not in face of the necessity for such cooperation, take action at this time exactly contrary to such appeal.

The proposal for salary reduction as contained in Assembly Bill No. 700 is so rigid and inflexible that it presents many most grave dangers and possibilities of causing hardships much more severe than the Legislature would wish to impose upon the thousands of State employees who have endured long and faithful service. These hardships are increased by the great changes that have taken place rapidly in recent weeks in the way of increasing commodity prices. The value of our currency has decreased from day to day. The purchasing power of the dollar already has been reduced in a very great degree and there are distinct signs that there will be further reductions. This condition which has already occurred has resulted in cutting the purchasing value of the employees' dollar. Should the process of inflation continue at the rate at which it has increased in the past few months, we may soon reach a point where even the present pay rates would be inadequate to provide for a life of subsistence. Although Assembly Bill No. 700 is considered an emergency measure for salary reductions, it provides no means of making adjustments in the future conditions although providing pay schedules for two years into the future.

A careful comparative study of the pay schedules of the employees of the State of California clearly demonstrates that the employees of the State are not overpaid. During our recent period of great prosperity and high prices, public employees as a general class did not participate in the greatly increased earnings that were enjoyed in commercial and industrial pursuits. Even in times such as these when many private employers have greatly raised the compensation of their workers from the peak levels of 1929, a careful study indicates that the pay ranges of State employees are not out of line with those in private enterprise.

In particular I wish to call your attention to the fact that a revised study of the State budget shows that the total amount saved by the proposed pay cut as scheduled in Assembly Bill No. 700 is but a small sum in comparison with the total budget. Moreover, the amount that would be saved by the proposed pay cuts in expenditures out of the general fund would be less than 1 per cent of the total requirements which the Legislature and the Constitution impose upon that fund. The total sum necessarily to be added to the appropriation for the general fund to maintain the present pay schedules is \$1,652,000. The amount necessary to maintain the present pay schedules for the special funds would be \$1,467,800. The

money for the special funds is already available in these several funds and can be used without added legislation.

In order to provide a comparable salary scale for the general fund, it will require an appropriation in the sum of \$1,652,900. When Assembly Bill No. 700 was enacted it was commonly stated that it would save approximately \$5,000,000 for the general and special funds. The difference in the figures now quoted results from the fact that legislation already enacted and administrative adjustments already effective, or being made effective, give positive assurance that the \$1,652,900 will be sufficient to maintain the present personnel and salary scales. I have already instructed the heads of all State departments that they must not reduce personnel in these trying times.

I appreciate the seriousness of the tax burden being borne by the taxpayers of this State. My proposals with regard to the financial affairs of the State of California have never failed to take uppermost into consideration the need for relief to the taxpayers. Moreover, with the adoption by the people of Senate Constitutional Amendment No. 30, we have become committed to a radical change in the tax methods in this State. There seems to be a consensus of opinion that a general retail sales tax of approximately 3 per cent will be imposed. This tax will fall directly upon all the employees of the State and will thus impose an additional burden.

Through Senate Constitutional Amendment No. 30, most rigid limitations have been imposed upon future expenditures. The budget for the present biennium will be the basis upon which future appropriations will be measured. Unless reasonably adequate provisions are made for the necessary operations of the State government during this biennium, the proper financing of the services of State government will be in jeopardy in all future periods.

I will always have faith in the future of California. I believe that the recovery in business and industry will be greater in this State than in any other section of the country. I believe, therefore, that we should not at this time allow present difficulties to so warp our judgment that we can not look to the future. I believe that we should be consistent and should do for State employees what we hope private enterprise will do for its workers. Certainly we should not, in face of inflation of the dollar, increase in commodity prices, and the general appeal to raise wages in industry, have the State of California make such drastic reductions as to bring the scale of wages for many workers below that of private enterprise at the very moment when the tendency is in the opposite direction.

It is for these reasons that I returned Assembly Bill No. 700 to the Assembly without my signature and for these reasons that I make this additional appeal on behalf of the workers of the State of California. While my veto message pointed out other arguments, including inconsistencies in the bill itself, as added reasons for refusing to affix my signature, it appears now that the larger and more compelling considerations, as stated in this communication, should have even more weight.

May I appeal to you, therefore, to sustain this veto, not only in the name of the employees and workers of the State of California, but also on behalf of those who look forward to the near future when California will lead the way out of the depression and into a brighter day of economic recovery.

Sincerely and respectfully,

JAMES ROLPH, JR., Governor of California.

#### MESSAGES FROM THE ASSEMBLY.

The following messages from the Assembly were received and read:

ASSEMBLY CHAMBER, SACRAMENTO, July 17, 1933.

MR. PRESIDENT: I am directed to inform your honorable body that the Assembly on this day refused to sustain the Governor's veto concerning Assembly Bill No. 41—An act to amend sections 737dd and 737jj of the Political Code, relating to the annual salary of judges of the superior court in and for the county of Orange and the county of San Bernardino. The following letter from the Governor states his reason for the veto:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE,

SACRAMENTO, July 17, 1933.

*To the Honorable Members of the Assembly, California State Legislature:*

I herewith return, without my signature, Assembly Bill No. 41.

This bill duplicates Senate Bill No. 659, which I have already returned to the Senate with the following message:

"I herewith return, without my signature, Senate Bill No. 659.

This bill reduces the salaries of the superior court judges of Riverside, San Bernardino, Orange and Santa Barbara counties. The author of this bill has informed me that there is a great deal of opposition to the measure in his county, and the other Senators who are representatives of the counties affected by the bill have each advised me that they believe the bill should be returned, so that a more satisfactory measure can be worked out at the July session of the Legislature."

An Assembly Bill No. 41 introduced for the counties of Orange and San Bernardino the provisions of Senate Bill No. 659. The same provisions are applicable, and I therefore return the bill.

Respectfully submitted

JAMES ROLPH, Jr., Governor of California.

ASSEMBLY CHAMBER, SACRAMENTO, July 17, 1933.

MR. PRESIDENT: I am directed to inform your honorable body that the Assembly on this day refused to sustain the Governor's veto concerning Assembly Bill No. 1007. An act to amend section 1 of an act entitled "An act authorizing the establishing of municipal courts, prescribing their constitution, organization, government, procedure and jurisdiction, and providing for the election and appointment of the judges, clerks and other officials of such courts, their terms of office, qualification and compensation, and for the selection of juries thereon," approved May 24, 1926, relating to municipal courts. The following letter from the Governor states its reason for the veto:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE,

SACRAMENTO, June 12, 1933.

To the Honorable Members of the Assembly, California State Legislature.

I herewith return, without my signature, Assembly Bill No. 1007.

This bill reduces the salary of the judges of the municipal court of the city of Los Angeles from \$7,500 to \$6,000 per year. In my veto messages on Assembly Bill No. 10 and Assembly Bill No. 1, I stated distinctly the policy of preserving an equivalence in the salaries of the superior court judges of Los Angeles, San Francisco and Alameda counties. Los Angeles County, I pointed out, was a county of no largest jurisdiction in the State, and was the county with the greatest property valuation. What is true as far as comparison of counties is concerned, is also true when the city of Los Angeles is compared with any other city in the State.

To sign Assembly Bill No. 1007 would mean that the municipal court judges of Los Angeles County would receive less compensation than the municipal court judges of San Francisco. Such a measure would be inequitable in its operation, and would result only in dissatisfaction. At each session of the Legislature, the functions, powers and duties of municipal court judges are increased. The municipal court judge of the city of Los Angeles has the same duties and responsibilities as the municipal court judge of the City and County of San Francisco, and to treat them on a different basis would be a discrimination.

Respectfully submitted

JAMES ROLPH, Jr., Governor of California.

ARTHUR A. OHNIMUS, Chief Clerk.

The following letter from the Governor states his reason for the veto:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE.

SACRAMENTO, July 17, 1933.

*To the Honorable Members of the Assembly, California State Legislature.*

I herewith return, without my signature, Assembly Bill No. 880.

This bill reduces the salary of the municipal court judges of Long Beach from \$7,500 to \$6,500 per year. I have already returned Assembly Bill No. 1007, which made a similar reduction in the compensation of municipal court judges of Los Angeles.

The entire matter of compensation of Los Angeles County judiciary is a subject, I believe, that deserves further consideration, to the end that the compensation ultimately fixed should be consistent with the salary paid judges in the other two large counties, namely, San Francisco and Alameda.

Respectfully submitted,

I herewith return, without my approval, Assembly Bill No. 856.

This bill makes an appropriation of \$1,500 to pay the claim of William Dyer against the State of California.

I am informed that no claim in this matter was ever presented to the State Board of Control, and they have no knowledge of the nature of the claim of the said William Dyer. Without the concurrence of the State Board of Control in claim bills, I can not consistently approve the same.

Respectfully submitted,

JAMES ROLPH, JR., Governor of California.

ASSEMBLY CHAMBER, SACRAMENTO, July 17, 1933.

MR. PRESIDENT: I am directed to inform your honorable body that the Assembly on this day refused to sustain the Governor's veto concerning Assembly Bill No. 356—An act to amend sections 3110, 3122, 3140, 3141 and 3142 of the School Code, and to repeal section 3142 thereof, all relating to the establishment, admission to, and discontinuance of kindergarten. The following letter from the Governor states his reason for the veto:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE,  
SACRAMENTO, June 16, 1933.

*To the Honorable Members of the Assembly, California State Legislature.*

I herewith return, without my approval, Assembly Bill No. 356, "The Kindergarten Bill."

As finally presented to me, the only change made by this bill would require that the minimum age for kindergarten attendance shall be five instead of four and one-half years. The opponents of the bill contend that the measure, if signed by me, will affect adversely the entire educational system of California.

I am convinced that the training and environment of the kindergarten has become an important factor in primary education, and primary education is recognized to be the most essential element of an educational system. As stated by one opponent, "the kindergarten is more important than the university." It is in the kindergarten that the children are of the age when they are most impressionable, and receive their first directed training in social values, language, habits and character.

Parents and educators make agree that an age of four and one-half years is a desirable age at which children should begin to receive the benefits a kindergarten offers, for it is about the training received at this age that their future development in a large part depends.

A further objection to this bill, and one of major importance in consideration of the measure, is the fact that if the bill is signed, its ultimate effect, particularly in smaller communities will be to abolish the kindergarten entirely; depleted attendance will reduce the average daily attendance below ten, so that the kindergarten, under existing provisions of the law, will have to be discontinued. Thus, in some communities, all children would be deprived of kindergarten advantages, even though some of the children in the community met the age requirements of the bill before me.

I am, therefore, of the opinion, that the signing of this bill would constitute an effort of economy at the expense of children, by depriving them of training that they so vitally need, and as this would have an injurious effect upon our whole educational system, I have refused to sign the bill.

Respectfully returned.

JAMES ROLPH, JR., Governor of California.

##### MESSAGE FROM THE ASSEMBLY.

The following message from the Assembly was received and read:

ASSEMBLY CHAMBER, SACRAMENTO, July 18, 1933.

MR. PRESIDENT: I am directed to inform your honorable body that the Assembly on this day refused to sustain the Governor's veto concerning Assembly Bill No. 562—An act to amend section 3897 of and to add section 3774 to the Political Code, relating to the holding, leasing and sale of lands to which the State or any political subdivision or agency of the State holds title through sale and deed on account of delinquent taxes or assessments. The reason for vetoing the bill is stated in the following letter from the Governor:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE,  
SACRAMENTO, June 12, 1933.

*To the Honorable Members of the Assembly, California State Legislature.*

I herewith return, without my signature, Assembly Bill No. 562.

This bill changes the provisions relating to sale of property which has been deeded to the State for nonpayment of taxes. It also provides for control by irrigation districts, municipalities, or counties of land which has been deeded to the State for nonpayment of taxes and also has been deeded to a political subdivision or State taxing agency for nonpayment of local taxes or assessments.

As a measure designed to permit sale of property deeded to the State or to local taxing agencies or to both, in order to make the property once more productive and a source of revenue to the county and local agencies, the bill has a great deal of merit.

However, the authorization of the sale by the State Controller is deleted from the law and any local taxing agency which has also taken title to the land is authorized to stop the sale.

The bill is also in conflict with Senate Bill No. 411 as to its provisions covering control of the land where it has been deeded both to the State and to a local taxing agency. Senate Bill No. 411 permits the local taxing agency to pur-

chase the land from the State under such circumstances. Assembly Bill No. 562 authorizes an irrigation district, or a municipality or county, depending upon the location of the land, to take possession and rent or lease the same for the period of a year and relet and sublet the land subject to such rental or lease.

If a sale of the land is to be subject to a year's lease, confusion would result as to the status of the land if it is to be purchased by a political subdivision or taxing agency under the provisions of Senate Bill No. 411.

Assembly Bill No. 822, which I have already signed, postpones any deeds of lands sold to the State for completion of title until some time in August, at which time the Legislature will have reconvened. Assembly Bill No. 822, by placing the matter in abeyance, gives the Legislature an opportunity to clarify the law and determine its policy in the matter and to work out a consistent bill without conflict.

Respectfully submitted,

JAMES ROLPH, JR., Governor of California.

#### COMMUNICATION.

The following communication was read, and ordered printed in the Journal:

STATE BOARD OF EQUALIZATION, STATE OF CALIFORNIA.  
SACRAMENTO, July 18, 1933.

*Mr. Joseph A. Beck, Secretary of the Senate,  
State Capitol, Sacramento, California.*

DEAR MR. BECK: PURSUANT to your letter of July 18th calling our attention to a resolution adopted by the Senate on July 17th, in which this board is asked to submit to the Senate data obtained from the statutes of other States having sales tax legislation showing:

- (1) The rates imposed by such States in retail sales.
  - (2) The articles and commodities exempted from such taxation,
- we are glad to append a schedule containing the desired information.

Very truly yours,

DIXWELL L. PIERCE, Secretary.

Below are listed the percentages of tax levied in the various States having sales tax statutes and an indication as to exemptions. It must be noted that comparison of these percentages alone is impossible because of the difference in the taxing base in the various States, and also because oftentimes different percentages are levied on producers and manufacturers in addition to retailers.

The list below contains only the percentage of tax required from retailers, unless otherwise indicated.

Kentucky-----	Graduated tax on gross sales at rate of 1/20 of 1 per cent on retailers doing business of \$400,000 or less, 2/20 of 1 per cent between \$400,000 and \$500,000, and up to 1 per cent over \$1,000,000.	No exemptions.
Illinois-----	2 per cent of gross receipts.	No exemptions.
Vermont----	Graduated tax on gross sales at rate of 1/4 of 1 per cent under \$100,000; 1/2 of 1 per cent between \$100,000 and \$200,000, to 4 per cent on gross sales over \$2,000,000.	No exemptions.
Connecticut---	\$1 on each \$1,000 of manufacturing or retail business done.	No exemptions.

West Virginia	1 per cent of gross sales of retailers (general sales tax on manufacturers, producers, retailers and other businesses).	No exemptions.
North Carolina	Graduated income taxes for privilege of doing business; amounts dependent upon type of business and location thereof.	No commodities exempted.
New York	1 per cent of gross receipts.	Exempts foodstuffs except confectionery, gasoline already taxed, sales by or to the State or political subdivision.
Pennsylvania	1 per cent of gross income.	Exempts sales by farmers selling their own farm products. Also sales to United States government.
Mississippi	1 per cent of gross proceeds (includes real and personal property and other personal assets are taxed for manufacturers and producers).	Exempts sales to United States government; sales to State of Mississippi, its departments and institutions; sale of schoolbooks where the sale price is fixed by State contract; sale of cotton seed, cotton lint, cotton, or baled cotton; sale of fertilizer, seed, boxes and/or crates for use in preparing agricultural products for market; sale of live stock, poultry and other products of farm, grove or garden if sale made by the producer or by members of his immediate family or employees forming a part of the producer's organization, in the original state or condition of preparation for sale.
Oregon	2 per cent of gross income.	Exempts retail sales of motor vehicle fuel upon which a sales tax has heretofore been imposed by the State; sales to United States government and to State of Oregon, their departments or institutions, or to any county, municipality, district or other governmental subdivision.
Washington	5-10 of 1 per cent of gross proceeds (other percentages placed on manufacturers and producers).	Exempts sales of goods shipped to points outside of the State; sales to United States government or State of Washington, their departments or institutions; so much of the gross proceeds of sales "as is collected by the taxpayer as an excise tax upon motor vehicle fuel or as a similar excise."

Arizona	2 per cent of gross proceeds of persons selling tangible personal property (other percentages placed on manufacturers and producers).	We are informed that the Arizona Sales Tax Act exempts "sales of motor vehicle fuel upon which a tax has been imposed under the provisions of Section VI, Revised Code of Arizona, 1928, or under amendments thereto."
Michigan	3 per cent of gross proceeds.	Exempts sales to United States government; also to State of Michigan, its departments, institutions or subdivisions.
South Dakota	1 per cent of gross income (other percentages levied on gross income of classes of business other than retailers).	
Indiana	1 per cent of gross income (other percentages levied on gross income of classes of business other than retailers).	
Utah	$\frac{3}{4}$ of 1 per cent (malt, 5 per cent; theatrical admissions, not less than 1 cent per admission, basic rate $\frac{3}{4}$ of 1 per cent).	Exempts sales of gasoline, oleomargarine, cigarettes or cigarette papers taxed under statutes; also sales to United States or to the State, its political subdivisions, departments and institutions.

NOTE: Most of these statutes contain a clause to the effect the tax imposed does not apply to sales which are exempt from the State of Federal Corporation.

#### MESSAGE FROM THE GOVERNOR.

The following message from the Governor was received and read:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE,  
SACRAMENTO, May 29, 1933.

*To the Honorable Members of the Senate, California State Legislature.*

I herewith return, without my signature, Senate Bill No. 739.

This bill provides that the appropriation made in 1931 for Santa Ana River flood control work shall be used for relief of unemployment in connection with such work and that said sum so appropriated shall be expended for any of such purposes when and if funds are procured of an equal amount from the Reconstruction Finance Corporation.

I am advised by the Director of Finance that this money should be reverted to the general fund as it is not being used as originally intended and is needed to aid the general fund of the State. This bill has the effect of giving this money to San Bernardino County if matched by Reconstruction Finance Corporation funds, which the State must repay.

My return of the bill is made without prejudice to a future enactment, when the Legislature returns in July, of a similar measure.

Respectfully submitted.

JAMES ROLPH, JR., Governor of California.

Said tax shall be similar to that provided for by the Federal Revenue Act of 1928, but shall be returned, calculated, ascertained and paid according to the system and rules hereinafter provided.

SEC. 35. Tax return. Any individual, resident of the State of California, receiving in any taxable year a net income which would be taxable under the provisions of the Federal Revenue Act of 1928, such individual being herein referred to as a taxpayer, shall, at the time for making return as provided in said Federal act, make an income tax return to the State and file the same with the commissioner for the purpose of a State tax on income. Whenever a taxpayer is required by the Federal government to file a supplemental return and whenever the return of any taxpayer is revised by the Federal government, such taxpayer shall file a supplemental return with the commissioner showing the changes in his net income made by such supplemental or revised return to the Federal government.

SEC. 37. Tax rate. The tax payable to the State of California on the net income taxable by the State as computed above shall be one-third of the amount that would have been payable to the United States under the provisions of the Federal Revenue Act of 1928 upon such a taxable net income.

SEC. 38. Return by public officers or employees. Any individual who would make no income tax return to the United States because of having no sufficient income taxable under the Federal Revenue Act of 1928 to call for such return, but who would have such sufficient income if his salary, fees or perquisites from the State or any subdivision thereof were taxable by the United States, shall be liable and is hereby required to make to the State of California annually a return on a form prescribed by the commissioner. In such case the tax liability to the State shall be one-third of what it would be to the United States if said income were taxable under the Federal Revenue Act of 1928.

SEC. 39. Tax on estates and trusts. The net income of estates and trusts in California taxable to the United States under the Federal Revenue Act of 1928 is taxable under this act in the same manner and to the same extent as the income of an individual, and the executor of such estate or trust shall make a return to the State in the same manner as hereinbefore required of an individual.

SEC. 40. Payments. When such return is made and filed with the commissioner as hereinbefore required, the taxpayer shall, on or before the last day for making return, pay to the commissioner at least one-third of the State income tax as fixed by the provisions hereinafter made, the balance being due and payable at intervals of four and eight months thereafter. A tax or any installment thereof imposed by this act may be paid at the election of the taxpayer, prior to the date prescribed for its payment. All taxes and penalties imposed under this act must be paid to the commissioner at Sacramento in the form of remittances payable to the Treasurer of the State of California, and the commissioner shall transmit said payments daily to the State Treasurer.

SEC. 41. Funds designated. All moneys received by the State Treasurer from said tax shall be deposited by him into the general fund of the State treasury.

SEC. 42. Duty of commissioner. The commissioner shall have authority and it shall be his duty to provide all necessary blanks for carrying out the provisions of this act, which blanks shall be distributed throughout the State in such manner as the commissioner may deem proper.

SEC. 43. Regulations by commissioners. The commissioner shall have power, and it shall be his duty, to administer this act, and to prescribe all such rules and regulations as are necessary and reasonable to carry out its provisions.

SEC. 44. Claims for exemption. Any taxpayer making return and paying, either in whole or in part, shall have the right, at the time of said payment, to file, with the person to whom payment is made, a written protest or claim of exemption as to any item or items included in his return which he conceived to be exempt from taxation by the State of California. In such case it shall be the duty of the taxpayer so making return to make a clear and distinct statement of all relevant facts connected with such protest or claim, and to make a clear statement of the reasons upon which his protest or claim is based. It shall be the duty of the commissioner to make a finding in regard to such protest or claim and notify the taxpayer of his decision thereon.

The right herein granted the taxpayer to file a claim of exemption or denial of liability for tax, shall not be construed to relieve the taxpayer from liability to make immediate payment of the tax, nor shall there be any judicial interference with the payment or collection of the tax upon any other ground, but all persons making return as herein provided for, or required so to do, shall pay as hereinbefore provided and make his complaint for or seek a refund as hereinafter provided.

SEC. 45. Board of income tax review. The State Board of Equalization shall act as a board of income tax review, which tribunal is hereby created. Whenever any taxpayer shall file a protest or make a claim for exemption as to any item or items in his return as provided in section 13 of this act and shall be dissatisfied with the findings of the commissioner as to such claim for exemption, the claim may be referred by the taxpayer to said State board. Upon receiving such reference the State board shall, by letter duly stamped and deposited in the mails, give notice to the taxpayer of the time and place where such claim shall be heard and passed on. The matter shall be heard at the time and place stated in the notice, unless continued by the State board to another time or place, or unless the number of such instances to be heard, or other good cause, makes it necessary to continue from day to day. At the hearing the State board shall summarily consider and pass on the claimed exemption, and either allow it or disallow it according as in their judgment the same is or is not so required by the Constitution or law of this State or of the United States.

SEC. 46. Review of determination of the State board. The determination of the State board upon the claimed exemption may be removed in any court of competent jurisdiction by a complaint filed by the taxpayer against the State board in the county in which the taxpayer resides within sixty days after notice by the State board of its determination. Thereupon appropriate proceedings shall be had and the relief, if any, to which the taxpayer may be found entitled may be granted. An appeal may be taken by the taxpayer or the State board to the Supreme Court in the manner that appeals are taken in suits in equity, irrespective of the amounts involved.

SEC. 47. Refunds. If in the opinion of the commissioner or of the State board, as the case may be, a tax has been computed in a manner contrary to law or has been erroneously computed, such fact shall be set forth in the records of the commissioner and the amount of the illegal levy shall be refunded to the taxpayer from the general fund of this State and it shall be the duty of the Treasurer of this State to pay such refunds from said revolving fund with interest at five per cent per annum.

SEC. 48. Default of taxpayer. Any taxpayer who shall fail or refuse to make such return as herein required shall be liable to a penalty of twenty-five per centum of the liability of such taxpayer as fixed by the return and other proceedings, and, in addition thereto, interest at the rate of one per centum for every calendar month from and after failure to make return. If such taxpayer, after having failed or neglected to make return, shall be notified by the commissioner so to do, and shall thereupon continue so to fail and refuse, the commissioner shall give to such taxpayer notice that on a day to be named he will assess the tax from the best information obtainable and after giving the taxpayer opportunity to be heard. In such case the penalty shall be fixed at fifty per centum upon the amount ascertained and assessed, with interest as hereinbefore provided, and such penalty and interest may be included as part of the tax.

SEC. 49. Fraud by taxpayer. Should any taxpayer, fraudulently and with a purpose to conceal his liability under this act, so fail or refuse to make return, or make any false and fraudulent return with a purpose to escape liability, such taxpayer shall, in addition to liability for the penalties herein provided, be liable to prosecution in any court having jurisdiction, and upon conviction shall be deemed guilty of a misdemeanor and punished accordingly.

SEC. 50. Warrant for the collection of taxes. If any tax imposed by this act or any portion of such tax be not paid within sixty days after the same becomes due, the commissioner shall issue a warrant under his hand and official seal directed to the sheriff of any county of the State, commanding him to levy upon and sell the real and personal property of the taxpayer, found within his county, for the payment of the amount thereof, with the added penalties, interest and cost of executing the warrant, and to return such warrant to the commissioner and pay to him the money collected by virtue thereof by a time to be therein specified, not less than sixty days from the date of the warrant. The sheriff shall within five days after the receipt of the warrant, file with the clerk of his county a copy thereof, and thereupon the clerk shall enter in the judgment docket, in the column for judgment debtors, the name of the taxpayer mentioned in the warrant, and in appropriate columns the amount of the tax or portion thereof and penalties for which the warrant is issued and the date when such copy is filed, and thereupon the amount of such warrant so docketed shall become a lien upon the title to and interest in real property or chattels real of the taxpayer against whom it is issued in the same manner as a judgment duly docketed in the office of such clerk. The said sheriff shall thereupon proceed upon the same in all respects, with like effect.

and in the same manner prescribed by law in respect to executions issued against property upon judgments of a court of record, and shall be entitled to the same fees for his services in executing the warrant, to be collected in the same manner. If a warrant be returned not satisfied in full, the commissioner shall have the same remedies to enforce the claim for taxes against the taxpayer as if the people of the State had recovered judgment against the taxpayer for the amount of the tax.

SEC. 51. Tax a debt. Every tax imposed by this act, and all increases, interest and penalties thereon, shall become, from the time it is due and payable, a personal debt, from the person or persons liable to pay the same, to the State of California.

SEC. 52. Action for recovery of taxes. Action may be brought at any time by the Attorney General of the State, at the instance of the commissioner in the name of the State, to recover the amount of any taxes, penalties and interest due under this act.

SEC. 53. Tax upon settlement of decedent's account.

(a) No final account of a decedent shall be allowed by any court unless such account shows, and the judge of said court finds, that all taxes imposed by the provisions of this act upon said decedent, which have become payable, have been paid, and that all taxes which shall become due are secured by bond, deposit or otherwise. The certificate of the commissioner and the receipt of the amount of the tax therein certified shall be conclusive as to the payment of the tax to the extent of said certificate.

(b) For the purpose of facilitating the settlement and distribution of estates held by fiduciaries, the commissioner may, on behalf of the State, agree upon the amount of taxes at any time due or to become due from such fiduciaries under the provisions of this act, and payment in accordance with such agreement shall be full satisfaction of the taxes to which the agreement related.

"SECTION 1. Section 3649 of the Political Code is hereby amended to read as follows:

3649. Any real property discovered by the assessor or called to his attention as having escaped assessment for any previous year or years within the preceding five year period shall be assessed at a value equal to the then value of such property, plus the value or values of such property on the first Monday of March of each of the years for which such property has escaped assessment, provided that property taxable under the provisions of subsection 4 of section 16 of Article XIII of the Constitution of the State of California and section 3627a of the Political Code of the State of California is not subject to the provisions of this section.

SEC. 2. Section 3817 of the Political Code is hereby amended to read as follows:

3817. In all cases where real estate has been sold, or may hereafter be sold to the State for delinquent taxes and the State has not disposed of the same, the person whose estate has been or may hereafter be sold, his heirs, executors, administrators or other successors in interest shall at any time after the same has been sold to the State and before the State shall have disposed of the same, have the right to redeem such real estate by paying to the county treasurer of the county wherein the real estate may be situated, the amount of taxes, penalties for delinquency, and costs due thereon at the time of such sale, and also all taxes that were a lien upon said real property at the time said taxes became delinquent, and also all unpaid taxes of every description assessed against the property for each year since the sale, as shown on the delinquent assessment rolls in the then permanent custody of the county auditor, or, if not so assessed, then upon the value of the property as assessed in the year nearest the time of such redemption, and also all costs and expenses of such redemption, and penalties as follows, to wit:

One per cent per month if redeemed within five years from July first of the year of sale; if not redeemed within five years from July first of the year of sale, one per cent per month for a period of five years and at the rate of one-half of one per cent per month thereafter to the time of redemption. The penalty shall be computed from July first of the year of sale upon the amount of taxes delinquent at the time of sale, and upon the amount of each year's taxes in like manner, reckoning from the first day of July of the year when the property would have been sold for the taxes of that year, if there had been no previous sale.

Upon redemption of property hereafter sold to the State, a fee of two per cent of all delinquent taxes shall be collected by the county treasurer of the county in which the property is situated and shall be paid to the State Controller. The fee of two per cent shall be computed from July 1st of the year of the sale to the State upon the amount of taxes delinquent at the time of such sale, and upon the amount of each year's taxes in like manner, reckoning from the first day of July of the year when the property would have been sold for the taxes of that year, if there had been no previous sale.

The county auditor shall, on the application of the person desiring to redeem, make an estimate of the amount to be paid, and shall give him triplicate certificates of the amount, specifying the several amounts thereof, which certificates the redemptioner shall deliver to the county treasurer, together with the money, and the county treasurer shall give triplicate receipts, written or indorsed upon said certificates, one to the redemptioner, and two to the county auditor, who shall deliver one of the said receipts to the State Controller.

Upon consummation of the redemption and the delivery of the receipts aforesaid by the treasurer, the auditor shall report the same to the assessor, tax collector and recorder, and the recorder shall, without payment of fee, note on the margin of the record of the certificate of sale, or deed, if issued, the fact of such redemption, the date thereof, and by whom redeemed, which certificate of sale, or deed, shall become null and void, and all right, title and interest acquired by virtue of the tax sale, shall cease and determine.

The county treasurer shall settle for the moneys received as for other State and county moneys.

The State Controller shall, upon request of the auditor, issue a receipt which may be recorded in the recorder's office of the county in which said real estate is

situated, in the book of deeds, and the record thereof shall have the same effect as that of a deed of reconveyance of the interest conveyed by such deed or certificate of sale.

This act shall also apply to State lands sold by the State when the full amount of the purchase price has not been paid to the State therefor, after the deed to the State, provided for in section 3785 has been filed with the Surveyor General; provided, however, that one of the receipts showing the redemption of such land shall be delivered to the Surveyor General who shall issue his receipt to the redemptioner; and provided further, that no certificates of redemption shall be issued by the county auditor until he has first ascertained from the Surveyor General that the land has not been disposed of by the State.

Sec. 3. Section 3817a of the Political Code is hereby amended to read as follows:

3817a. In all cases where real estate has been sold, or may hereafter be sold to the State for delinquent taxes pursuant to the provisions of section 3771 of this code and where the person whose estate has been or may hereafter be sold, his heirs, executors, administrators or other successors in interest shall, contemporaneously or prior to the payments hereinafter provided, also pay the current State and county taxes due on said property for the fiscal year during which such payment shall be made, such person, his heirs, legal representatives or other successors in interest, shall at any time after the same has been sold to the State pursuant to the provisions of section 3771 of this code and prior to the sale at auction provided for in section 3771a of this code have the right to extend the period during which such real estate may be redeemed and to postpone the date of sale by auction as provided by section 3771a of this code and the execution of the deed to the State as provided by section 3785 of this code, for additional periods of one year each, by paying to the county treasurer of the county wherein said real estate may be situated the following amounts for the following periods, respectively: (1) for extending the period of redemption for the first period of one year, by paying to the county treasurer a sum of money equal to the amount of the taxes, penalties for delinquency and costs thereon for which said real estate was originally sold to the State together with a sum equal to penalties on the aggregate amount of said taxes at the rate of one per cent per month; (2) for extending the period of redemption for each additional year thereafter, by paying to the county treasurer a sum of money equal to the taxes, penalties for delinquency and costs thereon for each of the second, third, fourth and or fifth years of delinquency, respectively and consecutively, together with a sum equal to the penalties on the aggregate amount of said taxes at the rate of one per cent per month; provided, however, that if any of the payments, as hereinabove in subdivisions (1) and (2) of this section provided, shall be made on or after the first day of July of any year and the State and county taxes on said property for the fiscal year next preceding such payment have not theretofore been paid, then such person must contemporaneously with the payments hereinabove provided also pay the said State and county taxes for the fiscal year next preceding such payment together with the penalties and costs due thereon.

The county auditor shall, upon request, issue his certificate in triplicate showing the amounts necessary to be paid as hereinabove provided, one copy of said certificate shall be delivered to the person making such payment and upon payment being made a receipt shall be indorsed upon said certificate by the county treasurer evidencing payments as compensation for the use and occupancy of said real estate and to be applied as a credit if, when and as redemption is made, as in this subdivision hereinafter provided. The county treasurer shall deposit all payments so made to the same fund in which moneys received upon redemption are deposited.

The county auditor shall keep accurate records of all payments made hereunder in a book kept for that purpose, said records to show the name of the person making said payments, the amount or amounts paid, the certificate number, if any, and the year or years of delinquency together with a description of the property.

Such payments shall not be deemed a redemption of such real estate nor affect the right, title, or interest in the State thereto, but shall postpone, for the period or periods aforesaid, the time when said real estate shall be deeded to or may be disposed of by the State and the moneys so paid shall be deemed and considered as compensation for the use and occupancy of said real estate; provided, however, that if redemption shall thereafter be made pursuant to the provisions of section 3817 of the Political Code, the amounts so paid to extend said periods of redemption and to postpone the sale provided for by section 3771a of this code and the execution of the deed provided for in section 3785 of this code, together with an amount at the rate of one per cent per month on the amounts so paid computed from the dates of said respective payments to the date of redemption, shall be credited on the amounts to be paid for such redemption."

Amendment adopted.

Senate Bill No. 731 read second time, ordered to reprint, engrossment, and on file for third reading.

## COMMUNICATION.

The following communication was ordered printed in the Journal:

SACRAMENTO, CALIFORNIA, July 1, 1933.

*To the Honorable Members of the Senate.*

The California Code Commission, to which were referred Assembly Bills Nos. 662 to 672, inclusive, and 674, herewith returns the same with the following amendments, notes and suggestions.

In addition to referring these bills to the commission, the Senate passed the following resolution, which will be found in the Senate Daily Journal for May 12, 1933, at page 111:

*"Be it Resolved*, That the Code Commission, to which commission has been referred the Motor Vehicle Code, and certain bills now on the Senate file, be and said commission is hereby requested to immediately delete from the code all new matter, and to have the code perfected so as to contain only present laws, in the same language as now used, and that said commission be, and it is hereby requested to immediately make recommendations as to the changes, if any, which should be made in the present laws, and incorporate such changes into the bills, other than the code, heretofore referred to such commission, and that the same be prepared immediately and printed, and that copies thereof, in the corrected and amended form, be forwarded to each member of the Senate on or before the first day of July, 1933, with comment on every proposed change showing the effect and reason therefor."

Inasmuch as the bills which were referred to the commission in addition to the code itself (Assembly Bill No. 674) are really supplemental to the Vehicle Code, it was felt that these bills were not available for the incorporation of amendments to the code. The commission decided that the simplest and most direct way of accomplishing the purpose indicated by the resolution was to prepare amendments to Assembly Bill No. 674 for the purpose of restoring the existing law for the consideration of the Senate.

Accordingly, the commission compared the provisions of the Vehicle Code with those of the existing California Vehicle Act and other provisions incorporated into the code.

In each instance where the code contained a substantive provision different than the corresponding provision in the existing law, an amendment or a set of amendments has been prepared to restore the existing law to the code. Attached to each such set of amendments is an explanation pointing out the differences between the code and the existing law.

Because of the highly technical and controversial nature of the subject matter, the commission does not feel justified in making definite recommendations as to all of the changes made by the Vehicle Code. It feels that the decision on many of these points lies with the Legislature. However, in those instances where a provision seems unworkable or of doubtful constitutionality, the commission has so indicated. In addition, where the information is available, the commission has tried to indicate the source of the changes made by the code.

The commission has not attempted through these amendments to restore completely the language of the existing law to the Vehicle Code as such a procedure would seem to defeat the purpose of a codification of the vehicle laws. An attempt was made to clarify ambiguities and to remove inconsistencies. In addition, sentences were shortened and existing sections divided into short convenient sections.

The commission, in its comparison of the existing law with the Vehicle Code and the preparation of the amendments, appended hereto, has attempted to make the Vehicle Code contain substantially the substance of the existing law. It may be, however, that some slight change in language was made by the code which the commission did not consider substantive but which persons more familiar with the practical working out of the provisions of the vehicle laws might consider to be substantive. In addition, there did not permit us to make an analysis of the provisions of Titles X, XI, XII, XIII and XIV as was made in the remainder of the code. The commission has gone through those titles and has prepared amendments to cover these changes made by the code which the commission considered to be minor changes. If upon further examination it develops that further amendments are necessary, the commission will prepare them before the Legislature reconvenes on July 17th. In the event that it is desired that any of the slight

changes which the commission did not consider desirable be eliminated from the code, the commission will prepare such further amendments as are suggested to it.

In determining what constitutes the existing law, the commission acted upon the assumption that bills passed by the third session of the Legislature should be so considered even though they are not in the code. Several bills were enacted which were directed to the Vehicle Code. These, of course, if signed by the Governor, would be incorporated in the code, or if they provided for anything which does not exist. In such instances where the commission of the Governor determines that the reason for the Act has either been removed or altered, and that some measure of policy, the provisions of such bills have been incorporated in the amendments. Changes in the California Vehicle Code by the Legislature will appear in the Governor's bills also being incorporated.

Appended hereto are a compilation of the various changes made by the Vehicle Code together with amendments to the code in the form in which it was last printed, that is, as amended May 11, 1933. It is to be noted that many of the sets of amendments amend some various parts of the code.

It is the thought of the commission that if the provisions of the existing law are preferred to that of the code, the amendments can be parliamentarily may be used. On the other hand, if the code provision is preferred, the amendments may be discarded. When it is finally determined which of the attached amendments are desired, they may be submitted in their proper sequence, compiled and sent to the printer.

If the code is preferred, Assembly Bills Nos. 667, 668, 669, 670, 671 and 672 should be adopted as they will remove references to vehicles from other provisions of the existing law which are not incorporated into the code.

Assembly Bills Nos. 665 and 666 are used to reestablish the transportation and licensing of vehicles. Assembly Bill No. 666 is a new general law on this subject while Assembly Bill No. 665 amends the Vehicle Code to remove the word "explosives" from sections 456 and 457. It would seem that the provisions relating to the transportation of explosives should not be included in the code. There exist certain provisions in the Penal Code and Unlabeled Explosives (Deering Acts 2447 and 2448). The Code Commission has allocated these acts to the title "Health and Safety". It would seem, therefore, that Assembly Bill No. 666 should be passed in its present form as a new general law. It will then be later considered by the Code Commission. If consistent with the other explosive acts above mentioned, with the Health and Safety Code as proposed. To be consistent with the commission of Assembly Bill No. 666, Assembly Bill No. 665 should also be passed in order to remove the reference to explosives now contained in the Vehicle Code.

Assembly Bill No. 668 amends section 4041.7 of the Political Code to remove therefrom a reference to regulations of highway. Section 4041.7 was provided by Assembly Bill No. 159 of the second session which was passed and signed by the Governor.

Assembly Bill No. 671 amends section 690 of the Political Code relating to the fees to be collected by the State Highway Dept. The purpose of this amendment is to remove the reference to vehicles under the chattel mortgage portions of the section. This section was provided by Assembly Bill No. 925 which has been passed by the Legislature and signed by the Governor.

Amendments are attached at the end of this report to Assembly Bills Nos. 668 and 671 to include in them the changes made by the bills which have already been enacted.

## COMMUNICATIONS

The following communication, offered by Senator Inman, was read, and ordered printed in the Journal:

SACRAMENTO, CALIFORNIA, July 19, 1933

Senator J. M. Inman, Chairman, Senate Investigation Committee,

Senate Chamber, State Capitol, Sacramento, California.

DEAR SIR: On January 17th of this year, the undersigned, Carl F. Bong, then supervising estimator in the Division of Automobiles, was called before the Senate Investigating Committee, in order not to avoid duty, to testify regarding the so-called "Bucke" building deal.

You will recall, Senator, that I, before testifying, informed your committee that I feared retaliation by certain State officials. Indeed, in this deal, by whom my testimony would not be taken kindly. I gave as the reason for my fears the facts that I for the past six years had suffered from the ill will of the chief of my division, due to my testimony in a similar deal. After that time, but alone partially all salary increases in that time, but they had been the cause of severe ill-treatment against me during the reclassification of the State Civil Service employees.

However, on the occasion of the hearing for the committee, Mr. Sheridan Downey, that "the entire price of the building would back me up." I gave my testimony which I believed was substantiated as much as it possible for your committee later to peruse this building for the State at a price approximately \$220,000 less than that originally contracted for.

On July 1st of this year, I was discharged by the chief of the division ostensibly because of lack of funds, but in reality as I believe I have demonstrated by the facts further set forth below, as a reward of my testimony before the committee.

1. Last fall I was informed by the administrative assistant of the division that though the decision had been made out of its support, my position would be retained but that my assistant would be discharged.

The budget submitted by the division shows this set-up:

The July 1st of this year, the personnel of the division practically to the number shown in the budget, with the exception that my former assistant now heads the estimating section and I have become disconnected.

2. No other section heads of the division have been discharged.

3. The notice of the dismissal of Carl F. Bong was work to a subordinate not having my civil service rank, and all the benefits a civil service employee should obtain when he by diligent work and by successfully passing the civil service examination, obtains the highest rank possible in his line.

My assistant, being in the employ of the State a few more years than I, has had the same opportunities as I have had to make the examination entitling him to handle

the estimating section, but either was at the time not capable of doing so or failed to do so.

4. Under the Civil Engineers' Registration Act, all matter pertaining to materials entering into building construction and the value and appraisal of buildings are considered the duties of a registered civil engineer. Inasmuch as my assistant now heading the estimating section is not a registered engineer the State would be seriously handicapped should any dispute arise with some contractor, especially if the matter should go into the courts.

In view of the above facts, I hereby respectfully request the help of you, Senator Inman, your committee and the legislative bodies of the State, as promised me, in fighting my unwarranted dismissal from the State service.

I am

Very respectfully yours,

CARL E. BERG, 1536 Thirty-sixth Street.

#### COMMUNICATION.

On request of Senator Inman, the following communication was read, and ordered printed in the Journal:

STATE OF CALIFORNIA, DEPARTMENT OF PUBLIC WORKS.

SACRAMENTO, June 6, 1933.

*Hon. J. M. Inman, Senator, Nineteenth District, Sacramento, California.*

MY DEAR SENATOR INMAN: It has come to my attention through the medium of the press that C. E. Berg, supervising estimator for the Division of Architecture, is to bring proceedings against this department following notification that he is to be laid off at the end of this month.

In the columns of the press he has charged discrimination and seeks to arouse opinion by maintaining that this lay-off is punishment for his testimony at the recent Senate investigation.

I write you individually because this morning's Union stated that you were to lay his case before each member of the Senate Investigating Committee. The facts of the lay-off are these:

The budget for the Division of Architecture under which we have been operating for the past two years amounted to \$508,000. By action of the Legislature this budget has been cut down for the coming biennium to \$150,000. Consequently wholesale dismissals are necessary to meet the budget requirements. Eighteen are to be laid off and a mere skeleton crew retained in the Division of Architecture.

As of January, 1931, 83 were employed in this division. Gradually, as the work decreased, this number was cut by 42. Mr. Berg continued in his position as these lay-offs occurred.

The work to be done by the division in the coming biennium is the smallest since 1923. It contains but two major projects and does not necessitate the employment of a supervising estimator, the position which Mr. Berg now holds.

The names and positions of the 18 who are being laid off have been selected almost entirely upon the basis of seniority rights. One or two deviations from this seniority selection have been where a matter of a few months' seniority existed and where the man with a few months less service with the State has been considered much more efficient than the other.

In Mr. Berg's case he is being laid off while a Mr. Adams, also an estimator in the division, is being retained. The difference in seniority ranking is more than three years in Mr. Adams' favor. Further, Mr. Berg's salary is \$330 per month while Mr. Adams' is only \$265, a saving in line with the economic demands of the Legislature.

I stress again at this point the fact that because of the tremendous reduction in the work to be done during the coming biennium, only one man's services are needed for estimating the jobs programmed. I further draw to your attention that it will be necessary to lay Mr. Adams off also as the estimating concludes.

Mr. Berg has no valid argument to sustain his contention that his lay-off is discriminatory or unfair. If he had seniority of service over Mr. Adams, he would be retained. Further, if plans of the Federal government to allocate Federal funds for public work in this State are carried out, it doubtless will be necessary to enlarge the Division of Architecture forces. In that case, all those now being laid off, including Mr. Berg, would probably be the first reemployed.

During the Senate Investigating Committee hearing, Mr. Berg explained a reluctance to testify at the outset, by stating that he thought he would be discriminated against and instanced testimony which he had given in 1926 as a result of which, he stated, he had been denied promotion in the Division of Architecture.

While the incident to which Mr. Berg so referred occurred in the regime of Mr. Bert Meek, nevertheless our records show there was no such discrimination. In fact, Mr. Berg's salary has been raised since 1926 and Mr. Berg has never been laid off hitherto while others have.

And so, Senator, I contend there has been no discrimination whatsoever shown in this case. We have, as I stated already, bowed assent to the law in the matter of seniority where efficiency was on a par. I can not see the logic in Mr. Berg's inference, that because he testified before the Senate Investigating Committee and feared discrimination, he should be expelled over a man who has had more years of service in the department.

I further wish to emphasize most emphatically that Mr. Berg is not being "dismissed." He is being laid off as his source of skill service emphasis being laid off in all branches of the State government. In effect, there is no work for those persons, but their status remains and their reemployment is assured as the needs of the department expand.

I lay those facts before you so that you may have both sides of the picture.

And now, with without personal regards and assurances that I am at your service for any additional information you may care to have on this matter, I am

Sincerely yours,

EARL J. KULLA, Director of Public Works.

#### MESSAGE FROM THE ASSEMBLY

The following messages from the Assembly were received and read:

ASSEMBLY CHAMBER, SACRAMENTO, July 19, 1933.

MR. PRESIDENT: I am directed to inform your honorable body that the Assembly on this day refused to sustain the Governor's veto concerning Assembly Bill No. 689. As yet to amend section 1277 of the Political Code, relating to the superior judge in and for the county of Colusa.

The reasons for vetoing Assembly Bill No. 689 are stated by the Governor in the following letter:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE.

SACRAMENTO, June 5, 1933.

To the Honorable Members of the Assembly, California State Legislature.

I herewith return, without my signature, Assembly Bill No. 689.

Assembly Bill No. 689 is not to reduce the annual salary of the judge of the superior court of Colusa County. At a meeting in my office on the Colusa County Government Bill on the protest of the board of supervisors, it was agreed by the board of supervisors of the board of supervisors, the grand jury and the citizens of Colusa County that a more equitable salary adjustment for county officers in Colusa County could be made by the introduction of new measures.

President to this notwithstanding I am returning the bill.

Respectfully submitted,

JAMES ROLPH, JR., Governor of California.

ARTHUR A. OHNIMUS, Chief Clerk.

By Fred J. Desch, Assistant Clerk.

Also:

ASSEMBLY CHAMBER, SACRAMENTO, July 19, 1933.

MR. PRESIDENT: I am directed to inform your honorable body that the Assembly on this day refused to sustain the Governor's veto concerning Assembly Bill No. 1006. An act to provide a two-day week for State employees during the present unemployment emergency, and declaring the urgency thereof.

The reasons for vetoing Assembly Bill No. 1006 are embodied in the following letter from the Governor:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE,  
SACRAMENTO, May 26, 1933.

*To the Honorable Members of the Assembly of the State of California.*

I herewith return, without my approval, Assembly Bill No. 1006. This bill provides for a five-day week in State employment when found by the head of a department to be practicable.

The bill vitally affects all the employees of this State and it is questionable whether or not it would affect executive officers whose duties and functions of office are prescribed by statute. It can not, of course, affect constitutional officers whose duties and compensation are prescribed by the Constitution.

I have had a canvass made of the opinion of the various department heads and I have found a unanimous feeling that this bill will disturb the effectiveness of operations of all State offices and might retard public service.

I realize that this bill is very important and far reaching in its effect. During the last two months, however, there has been a definite improvement in economic conditions and I doubt the advisability of committing the State to a policy of retrenchment in employment when two months more will enable all concerned to gain a better perspective of future economic conditions. Under these circumstances, therefore, I return the bill to you without prejudice and without my approval, urging you to give the same further study and consideration when you reconvene in July.

Respectfully submitted.

JAMES ROLPH, JR., Governor of California.

ARTHUR A. OHNIMUS, Chief Clerk.

By FRED J. DESCH, Assistant Clerk.

"SECTION 159. Section 159 of the California Vehicle Act, as amended, is hereby amended to read as follows:

Sec. 159. (a) There is hereby created in the State treasury a fund which shall be known as the "motor vehicle fund." The State Treasurer shall deposit all money received by him from the division or otherwise under the provisions of this act into the motor vehicle fund.

(b) There is hereby appropriated out of said fund all moneys received as transfer fees, operators' and chauffeurs' license fees, and duplicate operators' and chauffeurs' license fees and to purchase thereon such portion of the remainder of such motor vehicle fund not exceeding twenty per centum and forty-five per cent thereof as may be necessary for the maintenance of the Division of Motor Vehicles to be expended by the division in carrying out the provisions of this act; and the Division of Motor Vehicles is hereby authorized, out of said funds to purchase real estate and erect such buildings as it may require, subject to the approval of the Department of Finance. There shall be deducted from the sums which the division is

allowed to expend hereunder such amount as may be allowed to said division in each calendar year under budget appropriation by the State Legislature. The division may draw, without at the time forwarding vouchers and financial statements, sums not to exceed in the aggregate one hundred thousand dollars, and sums so drawn to be used as a revolving fund where cash advances are necessary. At the close of each fiscal year the monies so drawn must be accounted for and substantiated by vouchers and itemized statements submitted to and audited by the Department of Finance and by the Comptroller. The balance of said fund after the expenditure of so much as may be permitted by this act for the support of the Division of Motor Vehicles, shall be known as the "net receipts" and shall be devoted to the purposes and in the manner herein specified.

(c) One-half of such "net receipts" is hereby appropriated and shall be paid from the motor vehicle fund to the counties of this State in proportion to the number of vehicles registered in such counties as determined by the process of residence of the owners to whom the registration certificates are issued. All amounts paid under this section to the counties shall be deposited in the road funds of the several counties receiving the same and shall be expended by such counties exclusively in the construction, maintenance, improvement or repair of streets, roads, highways, bridges or culverts therein; provided, that the board of supervisors of any county may in its discretion expend any portion of such sums so received by such county in the construction, maintenance, improvement or repair of streets, roads, highways, bridges or culverts within those incorporated cities therein the legislative bodies of which by ordinance or resolution, authorize such work or construction, maintenance, improvement or repair. The board of supervisors of any county, or city and county, may also in its discretion expend any portion of such sums so received by such county, or city and county, for the payment of any portion of the principal or interest of, or for the redemption or purchase at a discount of, or for transfer to the interest and sinking fund for the discharge and payment of bonds, the proceeds of which have been used for the acquisition of rights of way for the opening, widening or extending, or the construction, maintenance, improvement or repair of streets, bridges, roads, highways or culverts within such county, city and county, or city, whether said bonds are those of the county, city and county, or any incorporated city therein, or of a special assessment district within such county, city and county, or city, for the payment of which special assessments (levied wholly or partly in accordance with the assessed value of lands) have been or are to be levied, which bonds have been issued in payment of, or the proceeds of which have been used for any of the above purposes; provided, however, that the proceeds received from any and all bonds purchased under the provisions of this section shall be used exclusively for the purposes for which the funds derived under this act may be used. Before any such sums may be expended for the payment of any portion of the principal or interest of, or for the redemption, or purchase at a discount of, or for transfer to the interest and sinking fund for the discharge and payment of bonds, the proceeds of which have been used for the acquisition of property or rights of way for the opening, widening or extending, or the construction, maintenance, improvement or repair of streets, bridges, roads, highways or culverts within such county, city and county, or city, the board of supervisors of any such county, or city and county shall, by a resolution adopted by a four-fifths vote of the members thereof, determine that the streets, bridges, roads, highways or culverts within such county, city and county, or city, for the acquisition of property or rights of way for which, or the construction, improvement or repair of which, as the case may be, said bonds were issued are of general county use. It is the intention of this provision that no such funds shall be expended for any of the purposes herein enumerated if the streets, bridges, roads, highways or culverts are of only local use. The board of supervisors of any county, or city and county, is hereby empowered to expend any portion of the amounts paid to the said county, or city and county and deposited in the special road improvement fund or other road fund thereof, as herein in this section directed, in and for the construction of public highways outside of its corporate limits; provided, however, that the construction thereof is authorized by ordinance or resolution of the board of supervisors of the county or city and county, in which said highway is to be constructed. Where such authorization is given by ordinance or resolution as herein provided, the board of supervisors of the county, or city and county desiring the said construction, may, through its own boards, officers or commissions expend the amounts herein authorized to be expended, or may, by resolution of its board of supervisors, transfer said amounts to the account of the Highway Commission of the State of California or to the account of the Secretary of Agriculture of the United States and may by said resolution specify and determine the route and type of construction of said highway, and the said amount thus transferred shall, if accepted by the said Highway Commission or said Secretary of Agriculture be expended for the purpose specified and determined in said resolution and not otherwise.

(d) The board of supervisors of each county in the State shall establish a road fund in the county treasury for the receipt of such funds received as hereinafter provided, and shall also make an annual report to the State Department of Public Works not later than three months after the close of the counties' fiscal year, upon

forms to be provided by the State Department of Public Works, showing the amount of money received from the State, the amount paid out during the preceding fiscal year and the disposition of such money, including a cash account of such receipts and expenditures, the results of such cash account, a statement of all other sources of such money and the uses applied to the several items of such construction or maintenance.

#### MESSAGE FROM THE ASSEMBLY.

The following message from the Assembly was received and read:

ASSEMBLY CHAMBER, SACRAMENTO, July 19, 1933.

MR. PRESIDENT: I am directed to inform your honorable body that the Assembly on this day refused to sustain the Governor's veto concerning Assembly Bill No. 2401—An act to provide for the postponement of the collection of assessments levied to pay principal or interest due on bonds issued under the authority of the Acquisition and Improvement Act of 1925 during the existence of an economic emergency.

The reasons for vetoing Assembly Bill No. 2401 are stated by the Governor in the following letter:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE,  
SACRAMENTO, May 29, 1933.

*To the Honorable Members of the Assembly, California State Legislature.*

I herewith return, without my signature, Assembly Bill No. 2401.

This is a new act purporting to authorize the board of supervisors or city council in its discretion to extend the time of payment for delinquent assessments under the Mattoon Act.

The proceedings for the levy and collection of assessments under this act are the same as those for general county taxes, and for all practical purposes such proceedings are inseparable from the proceedings applicable to general county taxes.

I am advised that it would create confusion without benefit if a law differing from that governing general county taxes was applied to assessments under the Mattoon Act, unless all such proceedings were entirely separated from the proceedings governing levy, collection and enforcement of general county taxes.

As Assembly Bill No. 822, already signed by me, places all delinquent taxes in a state of suspension until sometime in August, the problem presented by Assembly Bill No. 2401 is similar to that presented by Assembly Bills Nos. 851 and 1595, which bills have already been returned by me because they in some manner or other conflict with existing revenue laws. This matter can therefore be reconsidered in connection with Assembly Bill No. 851 and Assembly Bill No. 1595.

Respectfully submitted.

JAMES ROLPH, Jr., Governor of California.

ARTHUR A. OHNIMUS, Chief Clerk.  
By FRED J. DESCH, Assistant Clerk.

Assembly Bill No. 2401 ordered transmitted to the Assembly.

## RESOLUTION.

The following resolution was offered:

By Senator Swing:

WHEREAS, Over a course of years a custom has developed and it has been the practice to allow the Legislature to appoint committees to perform particular services connected with their duties as members of the Legislature; and

WHEREAS, In the resolutions providing for such committees an appropriation is usually made to pay the necessary expenses incurred by the committee in the performance of such duties; and

WHEREAS, It has been the practice of such committees to use such fund, not only to pay the expenses necessarily incurred by the committee, but also to pay the individual and personal expenses of the members thereof; and

WHEREAS, Such service rendered by the members of such committees is germane to the duties of the members thereof, as members of the Legislature; and

WHEREAS, The compensation provided in the Constitution for members of the Legislature was designed to cover such expense of such members, and that the practice of members of such committees in accepting and taxing to themselves pay for their personal expenses is violative of the intent of the Constitution; now, therefore, be it

*Resolved*, That it is the sense of the Senate and the members thereof, that such practice be discontinued and that hereafter when any appropriation is made in any resolution, motion or bill, to pay the expenses of any committee of the Senate, that no part or portion thereof be appropriated to or paid to any member of such committee, who is a member of the Senate, for or to cover his personal expense or any part or portion thereof, other than actual necessary traveling expenses from his home to and from the place of meeting.

Senator Swing moved the resolution be referred to the Committee on Rules.

Motion carried.

WITHDRAWAL AND REFERENCE OF SENATE BILL NUMBER  
NINE HUNDRED FIFTY-TWO.

Several hundred thousand parcels of property will be sold for delinquent taxes in August at final sale with no redemption permitted. Thousands will lose their property because of the economic situation through no fault of their own. All this property dumped on the market for price of taxes only will demoralize real estate market, reduce values of mortgage securities, and retard recovery. Please assist in preparation and passage of a bill extending time for final five year public auction sale for delinquency until June, 1937.

JAMES HERVEY JOHNSON,  
San Diego County Assessor.

In all cases where real estate has been sold to the State on or before September 6, 1933, for delinquent taxes, and the State has not disposed of the same, the person whose estate has been sold, his heirs, executors, administrators or other successors in interest shall at any time on or before the twentieth day of April, 1934, have the right to redeem such property by paying to the county treasurer of the county wherein the real estate may be situated, the payment of taxes due thereon at the time of such sale and also all taxes that were a lien upon said real property at the time said taxes became delinquent, and also all unpaid taxes of every description assessed against the property together with all taxes that are a lien against the property, for each year since the sale, as shown on the delinquent assessment rolls in the then permanent custody of the county auditor, or, if not so assessed, then upon the value of the property as assessed in the year nearest the time of such redemption, with interest on the whole amount of such taxes at the rate of seven per cent per annum computed from the first day of July, 1932, to the time of such redemption, except that interest upon taxes, assessed or unassessed, for the fiscal year 1932-1933, shall be computed from July 1, 1933, to the time of such redemption.

The provisions of this section shall be deemed to allow the redemption of such real estate on or before the twentieth day of April, 1934, free from the payment of any costs, interest (other than the interest hereinbefore in this section provided), penalties for delinquency, or redemption penalties, which may have accrued against said real estate on or before April 20, 1934. The provisions of this section shall have no application to the amount or rate of penalties for delinquency or upon redemption, for taxes of the fiscal year 1933-1934.

Except as otherwise in section 3817c and this section provided, such redemption shall be made in the manner prescribed in section 3817 of this code.

3817c. The word "taxes" whenever used in this section, includes all taxes and assessments and certain installments of a mortgage charged on the tax roll.

In all cases where real estate has been sold to the State on or before September 6, 1933, for delinquent taxes, and the State has not disposed of the same, the person whose estate has been sold, his executors, administrators, or other successors or interest shall on or before April 20, 1934, have the right to elect to pay such delinquent taxes in installments as hereinafter provided and by the payment of each of such installments, together with current State and county taxes, to extend the period of redemption of such real estate and to postpone the date of sale of such property at auction, as provided in section 3771a of this code, and time of making a deed of such property to the State, as provided in section 3785, and in the event said property has been deeded to the State, postpone the resale of such real estate by the State as provided in section 3897 of this code.

Upon payment to the county treasurer on or before April 20, 1934, of ten per cent, or more, of an amount equal to the total of unpaid taxes computed as prescribed in section 3817b of this code, plus interest on the whole of said amount at the rate of seven per cent per annum from July, 1932, to date of such payment, (except that interest upon taxes for the fiscal year 1932-1933 shall be computed from July 1, 1933), and by the further payment on or before April 20, 1934, of all State and county taxes levied and assessed for the fiscal year 1933-1934, together with penalties and costs due thereon, the right of redemption in installments hereunder shall be extended to and including April 20, 1935, during which time no sale at auction of such property shall be made as provided in section 3771a of this code, and no deed to the State shall be made as provided in section 3785 and no resale by the State shall be made in accordance with the provisions of section 3897 of this code. Upon payment to the county treasurer, on or before April 20, in each of the years of 1935 to 1943, inclusive, or until said amount has been paid, of ten per cent or more of said total amount together with interest at the same rate from the date of the preceding payment, on that part of said total amount remaining unpaid after such preceding payment, and upon payment on or before April 20th in each of the years of 1935 to 1943, inclusive, of State and county taxes for each of said years, with penalties and costs thereon, the right of redemption shall be extended, the time of sale at auction to the public and of deed to the State shall be postponed and resale by the State shall be suspended, for successive periods of one year. In the event of failure to make any of the payments herein specified to be made, on or before the dates herein set forth, the right to pay such delinquent taxes in installments shall cease and terminate and such property shall thereupon be subject to sale at auction or may be deeded to the State or resold by the State, in the same manner as though no election to pay delinquent taxes in installments had been made.

No such payment, nor all of them, shall be deemed a redemption of real estate nor affect the right, title or interest of the State thereto, but shall be deemed and considered as compensation for the use and occupancy of said real estate; provided that if each installment of delinquent taxes and interest be paid on or before the respective dates specified in this section, and if redemption of such property shall be made, on or before the twentieth day of April, 1938, in the manner hereinafter in this section provided, the amounts previously paid under the authority of this section shall be credited on the amount to be paid for such redemption.

The amount to be paid on or before the twentieth day of April, 1938, to effect redemption of such property under this section shall be the sum of the following amounts:

(a) Unpaid taxes computed as prescribed in section 3817b of this code, with interest thereon equal to the amount of interest included in all installment payments previously made, as authorized by this section, and, in addition, interest equal to the amount of interest due at the time of such redemption on the remainder, if any, of the amount payable in installments, as authorized by this section;

(b) Unpaid taxes for the fiscal years following the year ending June 30, 1933, with redemption penalties thereon computed in accordance with section 3817 of this code.

Except as in this section otherwise provided, such redemption shall be made in the manner prescribed in section 3817 of this code.

All interest received by the county treasurer pursuant to the provisions of this and the preceding section shall be distributed in the same manner as redemption penalties in accordance with section 3816 of this code.

SEC. 3. A new section is hereby added to the Political Code, to be numbered 3817d and to read as follows:

3817d. Notwithstanding the provisions of sections 3764 and 3771a of this code no sale at auction to the public shall be made of unredemmed property in the year of 1933 or 1934, but at the day and hour fixed for the sale in accordance with subdivision two of section 3764 of this code, all property otherwise subject to sale to the public shall be deeded to the State as provided in section 3785 of this code. No sale of any property shall be made in accordance with the provisions of section

1897 of this work after the official issue of the act and prior to the first day of January, 1905.

Sec. 4. A book entitled as hereby entitled in the [Internal] Code, to be registered with the [Internal] Code, and to be sold at [Internal] Code.

§ 38-17c. If any person, whether real or natural, is an individual officer of this State and is the State for the purposes of section 38-17b, whose real property located in this State has been exempted from taxation has been partitioned from the State and said person residing and employed in such State is probably the only person residing in another jurisdiction to bring suit against the said State to obtain such real property and to preserve in any partition suit and to prosecute the same to final judgment.

Sec. 5. If any person shall use or put on of this act or for any reason to be deemed a violation of the law, it shall not effect the validity of the remaining portions of the act. The Board of Health hereby declared that it would have passed this act irrespective of the fact that any one or more sections and sections contained therein should be deemed unconstitutional.

[illegible]

Section 1 of Article IV of the Constitution shall take effect immediately.

Due to the widespread economic crisis, mortgagees have been unable to pay their taxes, or to redeem their property from sale to the State for delinquency. For mortgagors delinquency is cumulative, and with mounting penalties, many taxpayers will be entitled to receive back as much as the sum of the tax paid and the fine add payable for the delinquency and enforcement of local government.

SEC. 8. In entering into and awarding contracts as provided in this act, in case of equal or equivalent offers, the authority shall grant preference to State agencies or other organizations not organized or doing business for profit but primarily for the purpose of supplying water or electric energy to their own citizens or members.

SEC. 9. The authority is hereby expressly authorized and empowered, subject to the provisions of this act, to fix and establish the prices, rates and charges at which any and all the resources and facilities made available by said Central Valley Project shall be sold and disposed of; to enter into any and all contracts and agreements, and to do any and all things which, in its judgment are necessary, convenient or expedient for the accomplishment of any and all the purposes and objects of this act, under such general regulations, and upon such terms, limitations and conditions as it shall prescribe; and it is and shall be the duty of the authority to enter into such contracts and fix and establish such prices, rates and charges so as to at all times provide revenue which will afford sufficient funds to pay all costs of operation and maintenance of any and all of the works authorized by this act, together with necessary repairs and replacements thereon, and which will provide at all times sufficient funds to meet and pay any and all payments for redemption of any and all bonds and interest thereon, which may be issued as provided in this act, as and when any and all such costs and charges become due and payable; provided, that nothing contained in this act shall authorize any change, alteration or revision of any such rates, prices or charges as established by any contract entered into under authority of this act except as provided by any such contract.

all officers of any such State agency charged with the collection of the taxes or assessments levied by such State agency to collect and collect all taxes or assessments so levied or assessed for the purpose of providing payment of the moneys due or to become due under such contract or license provided. All moneys so collected for such taxes or assessments shall be kept in a separate fund by the Treasurer or other officer of such State agency charged with the safe keeping and disbursement of funds of such State agency, and when the written demand of the authority, under which such taxes or assessments are levied, is made, the authority shall pay over to the authority all such moneys in the possession or control, which moneys shall be applied by the authority to the satisfaction of the contract due under such contract. In the event of failure, neglect or refusal of any officer or officers of any State agency to keep any tax or assessment moneys for the purpose of payment by such State agency in accordance with the authority, or to enforce or to collect any such tax or assessment, or to pay over to the authority any moneys collected on such tax or assessment, or to pay over to the authority any moneys in a court of competent jurisdiction as a result of any such failure, neglect or refusal, the proper superior court of all counties leading to the levying and collection of such taxes or assessments and the payment of the moneys collected therefrom to the authority as herein provided. SEC. 12. For the purpose of constructing, maintaining and operating said Central Valley Project the authority is hereby empowered to acquire for and in the name of the State of California, by gift or exchange, by purchase or by eminent domain proceedings and all ways, means, rights, facilities of way, easements, things, energy, power resources and facilities, and authority or opportunities, through or every kind and description and any opportunities for and such interests, and said authority shall determine to be required for the construction, maintenance and operation of said Central Valley Project and for effectuating the purposes and objects to be accomplished by the authority, construction and operation of said project. The cost of construction of said project shall include the cost and expense of acquiring all and all such interests and the cost of all expense is hereby declared to be a part of the capital cost of such Central Valley Project. When the authority shall acquire any property of any character needed as provided here, in accordance with the provisions of this act, it shall be lawful for the authority and said authority is hereby authorized, to condemn and take in the name of the State of California, by eminent domain proceedings, under the provisions of the laws of this State relating to eminent domain proceedings. Said authority shall not have power to condemn any such property by eminent domain proceedings until said authority shall first have filed a petition in said court declaring that public interest and necessity require the acquisition of such property and such resolution shall be conclusive evidence (a) of the public interest and necessity and (b) that such property is necessary, and (c) that such proposed acquisition is planned in a manner which will be most compatible with the greatest public good and the least private injury.

The authority in the name of and for the State of California may take immediate possession and use of any property acquired for the construction, operation or maintenance of said Central Valley Project after first obtaining eminent domain proceedings according to law in a court of competent jurisdiction, and thereafter giving such security as the way of money deposited as the court or which such proceedings are pending may demand, and in such amounts as the court may determine to be reasonably adequate to secure to the owner of the property sought to be taken, immediate compensation for such taking and any damage incident thereto, including damages sustained by reason of an allotment that there is no necessity for taking the property.

The authority is empowered to sell or otherwise dispose of any such water, water rights, rights of way, easements or property when it shall determine that the same is no longer needed for the purposes of this act, or to lease or rent the same or otherwise take and receive and apply to the purposes and objects of this act, or any hereof, the income or profit and revenue therefrom.

SEC. 13. The State of California hereby consents to the use and occupation of any and all rights of way across real property now or hereafter owned by the State and necessary for the construction, operation or maintenance of said Central Valley Project, including land of the State lying below any navigable waters of the State, in case the construction, operation or maintenance of said Central Valley Project shall in any manner interfere with the use, operation or maintenance of any building, structure or works owned, maintained or used by this State, or with any activity whatever which this State may be engaged in, including the use, operation or main-

tenance of any of the highways of this State, any and all relocation, reconstruction or removal, including grade separations and relocation of highways and operation and maintenance thereof, or other expense rendered necessary by such interference, shall be paid for out of funds appropriately therein and available therefor, and shall not in any manner be or become a charge upon any of the funds established or created by this act or upon funds accruing thereto.

Sec. 14. The authority, he and through the department, shall design all works to be constructed under the authority of this act. The authority may construct such works or may perform thereof by and through the department or may contract with the United States of America that such works or any part thereof may be constructed by and through the department under the supervision and subject to the approval of the United States, its instrumentalities or agencies. The cost of any and all of such works shall be paid from the proceeds of bonds issued and sold under the provisions of this act, or from contributions or appropriations or loans as herein provided.

All works to be constructed under the authority of this act shall be constructed under and in accordance with the provisions of an act entitled "The State Contract Act," approved June 10, 1923 (S. Statutes of 1923, Chapter 788), in so far as the provisions of said act may be applicable, provided however, that the amount of cash bidders' bonds or certified checks required to accompany any bid submitted, when bids relating to the construction of any such works are called for, shall be fixed and determined by the authority. The authority shall require of each contractor such bonds for the faithful performance of any contract or subcontract entered into hereunder and for the payment of any labor, materials or supplies used in, upon, for or about the performance of the work constructed to be done, fixing such terms and conditions, and in such amounts, as it may deem necessary. Moneys realized on any such bonds shall be paid into the construction fund.

Sec. 15. Notwithstanding any provision of this act to the contrary, or in conflict herewith, the authority is empowered to enter into contracts with the United States of America, its instrumentalities or agencies, or any thereof, for the purpose of planning the construction, maintenance and operation of said Central Valley Project and may in such contracts authorize the United States, its instrumentalities or agencies to supervise and approve the construction, maintenance and operation of the said Central Valley Project, or any portion or part thereof, and such time as any moneys expended, advanced or loaned by said United States, its instrumentalities or agencies, and agreed to be repaid thereto by said authority, shall have been fully repaid.

It is the purpose and intent of this act that the authority shall be authorized, and the authority is hereby expressly authorized and empowered, to accept cooperation from the United States of America, its instrumentalities and agencies in the construction, maintenance and operation and in financing the construction, maintenance and operation of said Central Valley Project, and with particular reference to operations, provisions of the following acts of Congress, The Reconstruction Finance Corporation Act of 1922, as amended, the Emergency Relief and Construction Act of 1922 as amended, and the National Industrial Recovery Act of 1933, and any other legislation which Congress may have heretofore adopted or may hereafter adopt under which aid, assistance and cooperation may be furnished by the United States of America in the construction, maintenance and operation of the construction, maintenance and operation of said Central Valley Project and the authority shall have full power to do any and all things necessary in order to avail itself of such aid, assistance and cooperation under Federal legislation now or hereafter enacted by Congress.

Subject to the foregoing, the authority shall have full charge and control of the construction, operation and maintenance of said Central Valley Project and the collection of all rates, charges and revenues of whatsoever character thereon. The authority shall proceed with the construction of said Central Valley Project immediately upon there being made available funds for such work and shall prosecute such work to completion as rapidly as possible. The collection of such rates, charges and revenues shall be continued as herein provided until all bonds issued hereunder are fully redeemed and paid.

Sec. 16. Any State agency, or the State or any department, board, commission, bureau, division or office thereof, may advance or contribute money, rights of way, labor, materials and any other property for the construction, operation or maintenance of the said Central Valley Project or any part thereof. Appropriations therefor may be made from any funds available for such purpose. Any State agency may also issue its general obligation bonds for any such purpose and the proceedings for the authorization, issue and sale of such bonds shall be subject to the law governing the issue and sale of bonds for public improvements by such particular State agency. Money or property so advanced or contributed may be immediately transferred or delivered to the authority to be used for the purpose for which such advance or contribution was made. The authority may enter into binding agreement with any State agency or the State or any department, board, commission, bureau, division or office thereof to repay any money of the value

any rights of way, labor, materials or other property so advanced or contributed; provided, no repayment therefor shall be made until all obligations issued by the authority for the construction of the Central Valley Project shall have been fully redeemed and paid, and then only out of the fundings provided from the operation of said Central Valley Project. After all bonds issued hereunder have been fully redeemed and paid, the authority may continue to collect revenues from the use and operation of said Central Valley Project for the purpose of reimbursing any State agency or the State or any department, board, commission, bureau, division or office thereof for any expenditures which may have been made by it in accepting any direct contributions made by the State and issue for the construction, financing and for the purpose of repayment of any amount the authority shall have agreed to repay for money, rights of way, labor, materials or other property advanced or contributed for the construction of said Central Valley Project, or unit thereof; provided, the authority is authorized to receive and accept from any and all sources money, rights of way, labor, materials or any other property for the construction, operation or maintenance of said Central Valley Project, or any part or specific portion of unit thereof, or for any of the purposes of this act, and may agree with the person or entity so contributing to apply said money or property in the manner and for the purpose so contributed, and such contribution, or contributions shall thereupon be used and applied in accordance with such agreement.

Any State agency, board, bureau, department, commission, bureau, division or other entity or organization is authorized to borrow, to enter into contracts with the authority for the purchase or the use of water, water flow, water storage, electric energy, or other resources and facilities made available by the said Central Valley Project.

SEC. 17. When any of the works herein authorized are being constructed by the authority or through the operation and equipment of the authority, or either or both thereof, may carry or cause to be carried such an amount of insurance or indemnity bond or bonds as protection against loss or damage as the authority may deem proper. The authority is further empowered to carry such an amount of insurance to cover any loss or destruction in part or in whole of any works authorized hereunder, with all bonds and in bonds in place together with interest thereon, have been fully redeemed and paid. All money collected on any indemnity bond of insurance paid on the result of any damage or injury to any such works shall be used for the purpose of carrying on or completing such works as long as there are bonds outstanding and unexpired. The authority is also empowered to carry insurance or indemnity bond insuring against the loss of revenues to be derived from said Central Valley Project by reason of any interruption in the use of said project, or any part thereof, from any cause whatever, and the proceeds of such insurance or indemnity bond shall be paid into the fund into which the revenues are required to be paid and may be applied to the same purpose and in the same manner as other moneys in the said fund. Such insurance or indemnity bonds may be in an amount equal to the probable revenues to be provided from the use and operation of said project during any period of time that may be determined upon by the authority and paid in its entirety, or be paid out of the revenue fund. The authority may practice in the proceedings authorizing the issuance of bonds for the carrying of insurance as authorized in this act and the proceeds and carrying of such insurance shall be made a charge or obligation upon said authority and be paid for out of the revenue fund.

SEC. 18. For the purpose of providing money and funds to pay the cost and expense of construction of said Central Valley Project, the authority is authorized and empowered to issue revenue bonds in a total sum of not to exceed one hundred seventy millions of dollars, provided, however, that the aggregate amount of said bonds hereby authorized shall be reduced to such an amount as the United States of America shall appropriate and make available as its contribution towards the construction of said project or any unit thereof, and provided further that the aggregate amount of any such bonds hereby authorized shall be further reduced by such an amount as may be authorized and made available out of the treasury of the State of California to aid in the construction of said project or any unit thereof.

SEC. 19. Any and all such bonds so authorized shall be issued in the name of the authority and shall constitute obligations only of said authority and shall be identified as Water Project Authority revenue bonds and shall contain a recital on the face thereof that the payment or redemption of said bonds and the payment of interest thereon is secured by a first and direct charge and lien upon the revenues of any nature whatever received from the operation of said Central Valley Project for the construction of which the said bonds are issued and that neither the payment of the principal or any part thereof or any interest thereon constitutes a debt, liability or obligation of the State of California. Bonds issued under the provisions of this act shall not constitute or be a debt, liability or obligation of the State, and the payment of both principal and interest on all such bonds shall be secured only by the rates, charges, and revenues established or accruing from the use or operation of the said Central Valley Project, and shall be paid from such revenues or from such contributions or appropriations as may be made available under the terms of this act. All bond redemption and interest payments shall constitute a first and direct charge and lien on all revenues received from the operation of said Central

Valley Project, on all interest accruing from said revenues and on all sinking funds created out of said revenues. The collection of said revenues shall be continued until all bonds issued hereunder, together with interest thereon, are fully redeemed and paid.

SEC. 20. All bonds authorized under the terms of this act may be issued and sold from time to time and in such amounts as may be deemed necessary in the judgment of the authority to provide sufficient funds for the construction of said Central Valley Project and to pay all costs and expenses, including interest due and payable, prior to and during the period of actual construction thereof and for a period of one year after completion thereof and the proceeds from said revenue bonds are hereby made available for such purpose; provided, that nothing herein contained shall limit or restrict the use by the authority for such purposes of any money appropriated by this act for the purpose of carrying out the provisions of this act.

The authority shall determine the form, conditions and denominations of all said bonds, and shall determine the dates which the bonds so to be sold shall bear and the interest rate thereon, which shall not exceed five and one-half per cent per annum. It shall not be necessary that all bonds of the same authorized issue bear the same interest rate. Principal and interest on such bonds shall be payable at such place or places as may be fixed and determined by the authority, and said bonds may contain provisions for registration thereof as to principal only, and as to both principal and interest. Said bonds shall be issued in coupon form with interest payable at such times as may be determined by the said authority, and shall mature at such times and in such amounts as the said authority may prescribe. The authority may provide for the retirement of said bonds at any time or times prior to their maturity, and in such manner and upon payment of such premiums as may be fixed and determined in the proceedings providing for the issuance of such bonds and referred to therein. All such bonds shall be signed by the chairman of the authority and countersigned by the Governor. The signature of the Governor may be by facsimile. All interest coupons shall bear the facsimile signature of the chairman of the authority. In case any of such officers whose signature or counter-signature appear on the bonds or coupons shall cease to be such officer before the delivery of such bonds to the purchaser, such signature or counter-signature shall nevertheless be valid and sufficient for all purposes the same as if they had remained in the office until the delivery of the bonds. Bonds authorized under this act may be sold below the par or face value thereof, such sale price, however, not to be less than that which will yield the purchaser not to exceed five and one-half per cent per annum according to standard tables of bond values, and such sale price shall include the interest which has accrued thereon up to the date of delivery of said bonds. Successive issues of bonds within the limits of the authorization as contained in this act shall have equal preference with respect to the redemption thereof and the payment of interest thereon; provided, however, the authority may fix different maturity dates serially or otherwise, for such successive issues. All bonds issued under the terms of this act shall be negotiable instruments under the law merchant. All bonds issued and sold under or by authority of this act shall be sold on sealed proposals to the highest and best bidder after such advertising for bids as the authority may deem proper; provided, however, said authority may reject any and all bids so submitted and may thereafter sell such bonds so advertised for sale at private sale under such terms and conditions as said authority may deem most advantageous; provided, they are not sold at a price below that of the best bid which was rejected.

The authority may contract loans and borrow money through the sale of bonds of the same character as those herein authorized, from the United States or any of its departments, agencies or instrumentalities upon such conditions and terms as may be agreed to and such bonds shall be subject to all the provisions of this act except the requirement that bonds be first offered at public sale pursuant to advertisement.

Temporary or interim bonds, certificates or receipts, of any denominations whatever and with or without coupons attached thereto, to be signed by the chairman of the authority, may be issued and delivered until the definitive bonds are executed and available for delivery.

The purchase price of bonds issued hereunder shall be paid to the Treasurer of the State of California for the account of the authority.

Notwithstanding anything otherwise provided in this act, any expense incurred by the authority for advertising, engraving, printing, clerical, legal or other services necessary to properly perform the services and duties relating to the sale and issuance of bonds under the authority of this act shall be paid from the proceeds of the sale of bonds issued hereunder by the State Treasurer upon warrants of the State Controller.

SEC. 21. The proceeds from the sale of all bonds authorized under the provisions of this act shall be paid to the Treasurer of the State of California to the credit of the construction fund and shall be deposited as demand deposits forthwith in such depository or depositories as may be authorized by law to receive deposits of

State funds to the credit of the construction fund, which fund shall at all times be kept segregated and set apart from all other funds. Such proceeds shall be paid out or disbursed solely for the construction of said Central Valley Project, for surveys, preparation of plans and specifications, and for payment of all other costs and expenses prior to and during construction, for the acquisition of the necessary water, water rights, rights of way, easements, lands, electric energy, power resources and facilities, and other property of every kind and description and any appurtenances to any such property necessary therefor, and the payment of interest becoming due and payable on such bonds prior to and during the period of actual construction and for the period of one year after the completion of construction and for all costs and expenses during a period of one year after completion of construction only as the need therefor shall arise and the Authority may agree with the purchaser of such bonds upon any conditions or limitations respecting the disbursement of such funds that may be deemed advisable for the purpose of assuring the proper application of such funds; provided, that nothing herein contained shall limit or restrict the use by the authority for such purposes of any money appropriated by this act for the purpose of carrying out the provisions of this act. All moneys in such fund and not required to meet preconstruction, acquisition or construction costs and expenses, or interest thereon, of the Central Valley Project, or unit thereof, for which such bonds were issued and sold, and all funds constituting surplus revenues which are not immediately needed for the particular object or purpose to which they must be applied or are pledged shall be invested in bonds and obligations eligible for investment of surplus State moneys; provided, the authority may provide in the proceedings authorizing the issuance of said bonds that the investment of such moneys shall be made only in particular bonds and obligations within the limitations eligible for such investment and such provisions shall thereupon be binding upon the said authority and its officials having anything to do with such investment.

Any surplus which may exist in said construction fund shall be applied to the retirement of bonds issued for construction of said Central Valley Project by purchase or call and in the event such funds can not be purchased at a price satisfactory to the authority and are not to their terms callable prior to maturity such surplus shall be paid into the fund applicable to the payment of principal and interest of said bonds and shall be used for that purpose. The proceedings authorizing the issuance of bonds may contain limitations and conditions upon the time and manner of applying such surplus to the purchase and call of outstanding bonds and the terms upon which they may be purchased or called and such limitations and conditions shall be followed and observed in the application and use of such surplus. All bonds so retired by purchase or call shall be immediately canceled.

All revenues received from the operation of the Central Valley Project shall be paid over by the authority or agent monthly to the State Treasurer who shall deposit the same forthwith or demand deposits in such depository or depositories as may be authorized by law to receive deposits of State funds to the credit of the revenue fund, which fund shall at all times be kept segregated and set apart from all other funds.

SEC. 22. From the moneys so deposited in the construction fund as hereinabove provided, the State Treasurer shall to the place or places of payment named in said bonds, transfer such sums as may be required to pay the interest as it becomes due on all bonds sold and outstanding for the construction of said Central Valley Project during the period of actual construction and during a period of one year after completion thereof. The Treasurer shall thereafter transfer from the revenue fund to the place or places named in said bonds such sums as may be required to pay the interest on said bonds and redeem the principal thereof as such interest payments and bond redemptions fall due on all bonds issued and sold, and all funds so transferred for the payment of principal or interest on such bonds shall be segregated and applied solely for the payment of such principal and interest.

The amounts required to be transferred by the State Treasurer as provided in this act shall be ascertained and computed by the authority and the certificate of the authority shall be conclusive and binding upon the State Treasurer.

The moneys remaining in the revenue fund after providing the amount required for interest and redemption of bonds as hereinabove provided shall be devoted to the payment of the costs of operation and maintenance of said Central Valley Project including necessary replacements thereto to the extent necessary therefor.

SEC. 23. The proceedings authorizing the issuance of bonds may provide for the setting up of a reserve fund or funds out of the revenues not needed for the payment of operation, maintenance and replacements, and not needed for the payment of principal and interest as the same actually mature, and may provide for the preservation and continuation of such reserve fund or funds in a manner to be provided therein, and such proceedings may also require the immediate application of all surplus moneys in such revenue fund to the retirement of such bonds prior to maturity, by call or purchase, in such manner and upon such terms and the payment of such premiums as may be deemed advisable in the judgment of said authority. The moneys remaining in the revenue fund after providing the amount

required for interest and redemption of bonds as hereinabove provided, shall be held and applied as provided in the proceedings authorizing the issuance of said bonds.

Notwithstanding anything contained in this act the proceeds received from the sale of bonds and the revenues received from the operation of said Central Valley Project may be used to defray any expenses incurred by the authority in connection with and incidental to the issuance and sale of bonds for the construction of said Central Valley Project, including expenses for the preparation of surveys, plans and estimates and the making of inspections and examinations as may be required by the purchasers of such bonds; provided, however, that the proceedings authorizing the issuance of such bonds may contain appropriate provisions governing the use and application of said bond proceeds and revenues for the purposes herein specified.

SEC. 25. After the expiration of one year after the completion of said Central Valley Project, all costs and expenses of the authority, including interest due and payable, incurred in performing the duties prescribed in this act, shall be paid out of said revenue fund upon demands duly audited as required by law and the moneys in said revenue fund are hereby appropriated for the payment of said costs and expenses, for the maintenance and operation of said Central Valley Project and for making necessary replacements thereto, and in the manner herein provided, to the extent necessary to pay the same, for the payment of the principal on all indebtedness incurred under the provisions of this act, as and when said principal and interest shall become due and payable.

SEC. 27. The authority, the department, the officials thereof and all State officials are empowered to do such acts and make such agreements not inconsistent with law as may be necessary or desirable in connection with the duties and powers

conferred upon them respectively by law regarding the construction, maintenance and operation of said Central Valley Project and the safeguarding of the funds and revenues required for such construction and the payment of the obligations incurred therefor. The State Controller, the State Treasurer, the department and the authority shall keep full and correct account and record of all their proceedings under this act, and then shall transmit to the Governor by abstract of all such proceedings thereunder with an annual report, to be by the Governor laid before the Legislature biennially, which report may contain such suggestions for changes, alterations or revisions of this act, or other legislation in aid of its purposes and objects, as may be deemed advisable or expedient.

The authority shall keep full and complete accounts concerning all matters and things relating to the said Central Valley Project and annually shall prepare balance sheet and income and profit and loss statements showing the financial condition of said Central Valley Project. All laws and papers pertaining to all matters provided for in this act shall be all reasonable times be open to the inspection of any party interested, or the Governor, or any committee of the Legislature, or any citizen of the State.

a great number of people for the common necessities of life, the continuing impairment and diminution of the navigation of the Sacramento River, the dire need of a water supply for developed areas of great value in this State, and the damaging of delta areas in the Central Valley of California by the encroachment of salinity from the ocean, have conspired to create in this State a serious and acute public problem and economic crisis which will be in great measure alleviated if financial assistance be secured from the United States of America at the earliest possible date in aid of construction of said Central Valley Project."

#### MESSAGE FROM THE GOVERNOR.

The following message from the Governor was received and read:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE.

SACRAMENTO, July 21, 1933.

To the Honorable Members of the Senate:

I have been formally advised by the Secretary of State that Assembly Bill No. 1115 has been adopted by the vote of the people of the State.

I have been formally advised by the Attorney General of the State to whom I referred the legislation for his advice. He has formally advised me at length in

his communication dated July 18, 1933, which I transmit to you herein and make a part of this message to you.

July 18, 1933.

*Hon. James Ralph, Jr., Governor of California,  
State Capitol, Sacramento, California.*

MY DEAR GOVERNOR: Yesterday by phone you asked to be advised relative to recent enactments of the Legislature, being Chapter 436, and Chapter 769, generally known as the 'racing bills.'

To arrive at an understanding of this legislation, something of legislative history must be given. The act which is now Chapter 436, was, as appears by the certification of the presiding officers of the respective houses, regularly passed and was approved by you on May 18, 1933, and is entitled:

'An act to provide for the regulation and licensing of horse racing, horse race meetings, and the wagering on the results thereof; to create the California Horse Racing Board for the regulation, licensing and supervision of said horse racing and wagering thereon; to provide penalties for the violation of the provisions of this act, and to provide that this act shall take effect upon the adoption of a constitutional amendment ratifying its provisions.'

Section 19 of the act provides:

'This act shall take effect upon the adoption of a constitutional amendment ratifying its provisions.'

As appears from the record, the act now Chapter 769 was regularly passed and was certified by the presiding officers of the Senate and of the Assembly, and met with executive approval on June 5, 1933. That act has the same identical title as the act now Chapter 436. Likewise, by section 19 of such act, it is provided:

'This act shall take effect upon the adoption of a constitutional amendment ratifying its provisions.'

Assembly Constitutional Amendment No. 119 was approved by the Legislature and was submitted to the electorate at the special election held June 27, 1933. That amendment constituted section 25a of Article IV of the Constitution, and reads as follows:

'The Legislature may provide for the regulation of horse races and horse race meetings and wagering on the results thereof. The provisions of an act entitled "An act to provide for the regulation and licensing of horse racing, horse race meetings, and the wagering on the results thereof; to create the California Horse Racing Board for the regulation, licensing and supervision of said horse racing and wagering thereon; to provide penalties for the violation of the provisions of this act, and to provide that this act shall take effect upon the adoption of a constitutional amendment ratifying its provisions" are hereby confirmed, ratified, and declared to be fully and completely effective; provided, that said act may at any time be amended or repealed by the Legislature.'

This was approved by the electorate and became immediately effective. Prior to its approval, as before stated, two acts had been passed by the Legislature, each bearing the same title, and each becoming effective pursuant to the provisions of the constitutional amendment so adopted.

It is proper to give such acts force and effect in accordance with their chapter numbers. Chapter 436 is in force and effect except in so far as it may be modified by conflicting provisions of Chapter 769. A comparison of the two acts reveals that the only differences are found in sections 5 and 10 thereof.

The major differences in the two acts and the only differences apparently that need be here considered are the following: Section 5 of Chapter 436 provides that 'said board shall consist of five members, each of whom shall be an actual bona fide resident of the State of California, and must have been such resident for two years next preceding his appointment as a member of such board, all of whom shall be appointed by the Governor and confirmed by the Senate after this act shall have been in force and effect fifteen days.'

Section 5 of Chapter 769 provides that 'said board shall consist of three members, each of whom shall be an actual and bona fide resident of the State of California and must have been such resident for two years next preceding his appointment as a member of said board, all of whom shall be appointed by the Governor after this act shall have been in force and effect fifteen days.'

It will be thus seen that by Chapter 769, the board to be appointed by the Governor is reduced from five to three members, and by the terms of that section, the confirmation of the Senate is not required, but the provision of section 5 contained in Chapter 436 requiring confirmation is not repealed and hence continues a requirement of the existing law.

It results that Chapter 769 controls as to the number of members, but the two sections are to be read together, and the provision requiring Senate confirmation prevails.

The second matter here comes that used to be considered and found in section 10 of the respective constitutions. Chapter 446 provides for a racing period in certain classes of counties of not to exceed sixty-six (66) racing days per year. While by section 10 of Chapter 769, the racing period is extended to not to exceed one hundred (100) racing days per year, in such classes of counties.

It appears under the law as it at present exists that a board consisting of three members having the qualifications prescribed in the statutes is to be appointed by the Governor, by and with the advice and consent of the Senate, and that the racing period by members of the first and second classes shall not exceed one hundred (100) days.

Should the results of this legislation be unsatisfactory to the Legislature or to the Executive, I may propose, during that in the Legislature is in session, an amendment not could be passed, but amendment is contemplated for it will be noted that the constitutional amendment contains the provision 'that said act may at any time be amended or repealed by the Legislature.' If it be thought advisable to amend at any time, but such could be passed as an emergency and made effective immediately upon approval as an emergency measure.

Yours very truly,  
(Signed)

U. S. WEBB

The act provided in section 2 that a California Horse Racing Board and fully sets forth their powers and duties in regard to the act.

Section 5 of the act provides that said board shall consist of three members, each of whom shall be an owner and breeder of horses in the State of California and must have been such member of the racing board preceding his appointment as a member of said board, all of whom shall be appointed by the Governor after this act shall have been in force and about 15 days.

One member of said board shall be breeder of unsoundbred or standard-bred horses and shall have been such for a period of three years next preceding his appointment; the other two members shall be any or each qualified persons. The Governor, at the time of making the appointment of said three members, shall designate one of said members to serve for the term of two years, one to serve for the term of three years and one to serve for the term of four years. Before entering upon the discharge of the duties of his office, each member of the board shall take oath of office as provided by law.

The term of office of any member of the board appointed shall be four years from the expiration of the preceding term. Whenever a said board shall be filled by the Governor for the unexpired term. Each member of said board shall be eligible for reappointment in the discretion of the Governor.

The Governor may remove any board member for cause, giving him a copy of the charges against him and an opportunity to be heard. No person shall be eligible for appointment or shall hold the office of board member or be appointed by the board or hold any other position on the board, who holds any financial interest in a race track or in the operation thereof within the State of California or in the operation of licensed wagering on the results of races, or who accepts any pecuniary reward from any race track in this State or from its operation or from the operation of licensed wagering on the result of races; provided that any such board member shall not be disqualified and is hereby expressly prohibited to receive, if otherwise qualified to receive, such share of any purse awarded him as the result of any race or as a breeder of California-bred horses, as provided in section 4 herein."

By the authority vested in me under the provisions of the act I hereby appoint and ask your confirmation of Daniel J. O'Brien, a resident of San Francisco, and designate him to serve for the term of two years.

Daniel J. O'Brien in my judgment is one of the best qualified citizens of this State to serve on this second board. He is a man of honor and of the highest integrity. He has been the chief of police of the city of San Francisco, rendering distinguished services to that municipality. He has been president of the Association of the Chiefs of Police of the United States; has been signally honored by having been president of the International Association of Chiefs of Police; has been, and still is, Director of Penology of the State of California; he has had experiences which qualify him for the appointment to which I now appoint him and respectfully request your confirmation.

By the authority vested in me under the provisions of the act, I hereby appoint John A. McNamara, a resident of Los Angeles, a member of said California Horse Racing Board, for the term of three (3) years.

I have had an investigation made by proper State authority and it is reported to me by said California State authority in writing that Mr. McNaughton "has independent income; great civic pride; honest; well respected." While he is not a native son (he was born in New York State), he was instrumental in having a plot in the Union Stock Yards dedicated to the Native Sons, "integrity unquestionable and does not permit friendship to sway him from a determination to do what is right."

The act provides that there shall be another member of the board; the act reads "one member of said board shall be breeder of thoroughbred or standard-bred horses and shall have been such for a period of three years next preceding his appointment." I have the names of several qualified persons under consideration and will appoint one subject to your confirmation. This I hope to do at as early a time as I can secure the information that is necessary for me to have to present to you in asking for your confirmation.

The act provides that two members shall constitute a quorum; the act does not require that all three names shall be sent to you at the same time for confirmation. You are about to recess or adjourn and it is imperative that this California Horse Racing Board be appointed and be ready to organize at the earliest possible date.

The Governors of the States of the United States will arrive in California tomorrow, midnight, and as host Governor to their coming my time will be completely occupied in doing honor to them while they are in California.

It would be very unfortunate if your honorable body were to recess or adjourn with this California Horse Racing Board not completed and ready to function.

Just as soon as I receive the information I require, because the act requires a special qualified person to be appointed and confirmed, I shall send said person's name to your honorable body for confirmation.

I respectfully ask your confirmation of the two gentlemen whose names I submit to you this morning.

Very respectfully yours,

JAMES ROLPH, Jr., Governor of California.

Governor's message ordered referred to Committee on Rules.

MR. PRESIDENT: I have this morning received information from the California State Grange regarding the income and sales tax which I would like to have printed in the Journal for the benefit and guidance of this body in voting on present tax legislation.

1. On July 3d, the executive committee of the California State Grange, representing 15,000 farmers, went on record in favor of an income tax and opposing a sales tax, except in modified form.

2. I have just been handed a circular issued by the State Coordinating Committee on Taxation in 1932 supporting Amendment No. 9 on the November ballot, sponsored by nearly 160,000 California farmers and home owners. Chairman of this committee, George Sehnemeyer, master of California State Grange; Vice President Von T. Ellsworth, California Farm Bureau Federation; Secretary Glenn D. Williams, California Real Estate Association. This group includes also: State Supervisors Association, Teachers Association, State Department of Education, California Property Owners Division, County Tax Equalization Association, and County Auditors Association. It advocated a selective modified sales tax and a personal income tax with a wide base, low rates, and low brackets. It is interesting to note that Senator Ralph E. Swing endorsed Constitutional Amendment No. 9.

3. I have also received copies of resolutions from the following Granges: Siskiyou County, representing 1500 Grange members; Stanislaus County, representing 1000 Grangers; Monterey County, 1400 Grangers; San Joaquin County, 900 Grangers; Butte County, 900 Grangers; Shasta County, 1200 Grangers; Tehama, 1000 Grangers; Santa Cruz, 500 Grangers; Sonoma County, 1500 Grangers; Trinity County, 400 Grangers; Glenn County, 500 Grangers; and Sacramento, 800 Grangers.

STATE OF CALIFORNIA, GOVERNOR'S OFFICE.  
SACRAMENTO, July 21, 1933.

*To the Honorable Members of the Senate of the State of California:*

I am enclosing herewith a copy of "A memorial to the Governor and the Legislature of the State of California, praying an increase in the appropriation for the Soldiers' Home, Napa County, California," passed by the members of the board of supervisors of the county of Fresno, and I submit the same for your careful consideration.

Respectfully submitted.

JAMES ROLPH, JR., Governor of California.

A Memorial to the Governor and the Legislature of the State of California, Praying an Increase in the Appropriation for the Soldiers' Home, Napa County, California.

WHEREAS, On account of the recent very drastic law passed by our National Congress, seriously affecting pensions, allowances and compensation heretofore paid to the veterans of the various wars in which the United States has taken part; and

WHEREAS, Due to this drastic legislation many veterans formerly eligible to admittance to the National Soldiers' Home in west Los Angeles (Sawtelle), California, have been discharged from said home; and

WHEREAS, Many thousands of these veterans will, in all probability, have to be cared for because of loss of their pension or compensation and because they are no longer eligible to the National Soldiers' Home; and

WHEREAS, The appropriation so far made by the State Legislature is inadequate for the purpose of caring for more than the present inmates of said home (approximately 1100); and

WHEREAS, There are plenty of facilities in said home for taking care of twice this number; and

WHEREAS, For every man cared for in said home, the Federal government will pay towards the upkeep of the home, the sum of approximately \$10 each month; and

WHEREAS, With this aid and with the present set up at said home these men can be cared for at a much more reasonable cost per capita than they could be by their respective county authorities; and

WHEREAS, Money for this additional cost can be legally appropriated from the State Athletic Commission fund without any additional cost to the taxpayers of this State; now, therefore,

*We, the members of the board of supervisors of the county of Fresno, do hereby recommend to the Governor and to the members of the Legislature of the State of California, That this matter be given their immediate and careful consideration with the idea of providing the necessary funds for caring for at least one thousand more inmates at the Soldiers' Home, Napa County, for the coming two years.*

Respectfully submitted.

STATEMENT BY SENATOR SWING.

The following statement by Senator Swing was read, and ordered printed in the Journal:

The adoption of Senate Constitutional Amendment No. 30 imposed upon the Legislature the responsibility of providing a tax system that will furnish sufficient funds, not only to absorb the county's share of the cost of schools, but, also, to meet the reasonable cost of maintaining State government without imposing further burdens on common property. We are reliably informed that the amount necessary for such purposes is from \$122,000,000 to \$128,000,000.

In adopting Senate Constitutional Amendment No. 30 the people were led to, and did believe, that upon its adoption the Legislature would provide methods of raising the necessary revenues by means other than an ad valorem tax. The measures now pending before the Legislature to meet this situation are:

- (a) A 2 per cent sales tax which is estimated to raise not to exceed \$80,000,000;
- (b) An income tax estimated to raise \$15,000,000;
- (c) A liquor tax estimated to raise during the present biennium not to exceed \$3,000,000. (When the prohibition amendment is completely repealed it will probably raise \$5,000,000 during a biennium.)

The total which may be anticipated from these methods, in the form in which the bills now are, is \$98,000,000, leaving a shortage of from \$24,000,000 to \$30,000,000. Unless the pending measures are changed this additional amount must, of necessity, be pushed back upon common property and the benefits which the people thought they were to receive when they voted for Senate Constitutional Amendment No. 30 will be deprived them.

The only way common property can be protected from this imposition is by providing sufficient revenue to meet the State's demands without the necessity of the imposition of an ad valorem tax.

As a means of meeting that responsibility, and performing our duty not only to the State but to the people we represent, the following are the only courses so far suggested:

- (a) Raise the sales tax to 3 per cent, which will produce approximately \$100,000,000;
- (b) The adoption of the income tax in a modified form, which will produce approximately \$15,000,000;
- (c) The adoption of the liquor tax, which will produce approximately \$3,000,000;
- (d) The amendment or repeal of the Ad Valorem Tax Law so as to prevent the possibility of the imposition upon common property of the destructive burden which the people by their vote determined should be removed.

From the sources above mentioned it will be seen that \$118,000,000 is reasonably sure. To this may be added an increase in inheritance taxes, an increase in automobile license plates and perhaps a few other changes, the aggregate of which will, at most, produce not to exceed \$4,000,000. The aggregate amount which can be raised from all these sources coincides with the minimum amount which we are advised must be raised, to wit: \$122,000,000. Providing for anything short of this amount is a failure in the performance of the duty imposed on us by the Constitution, and will surely result in an ad valorem tax unless the provision providing for the imposition of such a tax is repealed.

The recent vote of the people indicated a restoration of confidence in the Legislature, a belief in its ability to meet State problems and solve them. We can not shirk the responsibility and we must not destroy this confidence.

Our efforts to effect economies have been not altogether successful. The time when we might have forced further reduction during this biennium has passed. Irrespective of our views on the question of cost of government we are confronted with a situation that we can not change. The amount necessary to be raised has already been fixed and approximately determined. We can not change that. Our sole duty is to meet the conditions which confront us. If we do that we can adjourn with a realization that the Legislature has kept faith with the people, but if we leave any loophole which will form an avenue for again passing back to common property the burdens which it should not carry, we shall have failed. The vote will be taken on the various measures which have been designed to accomplish the will of the people as expressed in Senate Constitutional Amendment No. 30. By your vote as registered in the Journal you will individually determine your position upon these questions. Each of you must meet the issue squarely and each of you must assume your individual responsibility for such action as you shall take.

I present this statement to you at this time that you may have a full realization that if you fail to provide the necessary methods and means of raising the required State revenues, you will know that your failure will be met by an ad valorem tax, and when it is levied, and the political campaign wages, just recall that you had the opportunity of presenting the very thing which is bound to occur unless the measures adopted at this session provide adequate revenues to meet the demands.

CALIFORNIA REAL ESTATE ASSOCIATION,  
SACRAMENTO, CALIFORNIA, July 24, 1933.

Hon. Will R. Sharkey, State Senate.

DEAR SENATOR SHARKEY: The following resolution was unanimously adopted by the board of directors of the California Real Estate Association, convened at Oakland, California, July 21, 1933:

WHEREAS, Development of California necessitates investment of large amounts of capital and the development of California is of such a character as to invite the investment of capital from sources outside of this State; and

WHEREAS, Proposals now before the State Legislature of this State impose an income tax for State purposes on all investors in California in addition to the income of the United States; and

WHEREAS, It is held by California Real Estate Association that this imposition of a State income tax as proposed would unavoidably tend to restrict the inflow of capital to our State for its development; now, therefore, be it

*Resolved*, That this state-wide organization, representative of real estate boards and real estate ownership bodies throughout California, declare its opposition to enactment of any tax law which provides for a State income tax; and be it further

*Resolved*, That this organization favor and urge the adoption of the 3 per cent sales tax bill, Senate Bill No. 1211, introduced by Senator Swing, and in the form of its adoption by the Senate on July 19, 1933.

Very respectfully yours,

## COMMUNICATION.

The following communication, offered by Senator Jones, was read, and ordered printed in the Journal:

*To the Lieutenant Governor and the Members of the Senate.*

GENTLEMEN: Actuated solely by the desire to establish for the State of California a fair and equitable tax system, we, the authorized representatives of the

California State Federation of Labor and the Railroad Brotherhoods of California, hereby respectfully petition the Senate:

- (1) To vote for Assembly Bill No. 2429, providing for an income tax,
- (2) To concur in the Assembly amendments to Senate Bill No. 1211.

We regard the income tax as fair, just and equitable, as a tax levy that does not exact a pound of flesh from those whose income fails to meet the basic necessities of life. Therefore we think that now is the time to embody the principle of an income tax into the tax structure of our State.

We also insist that the sales tax, printed in the most attractive color, remains a tax upon property, a tax unconnected to consideration of equity or social justice, a tax that can be deferred only in the case of emergency. For the latter reason we urge concurrence in the Assembly amendments to Senate Bill No. 1211.

Respectfully,

CALIFORNIA STATE FEDERATION OF LABOR  
FAIR SENATORIAL LEGISLATIVE REPRESENTATIVES

RAILROAD BROTHERHOODS OF CALIFORNIA

G. F. IRVINE,

HARRY SEER,

R. C. BOGERTIN,

FRED E. REYNOLDS,

Sacramento, California, July 25, 1933.

Legislative Representatives.

MR. PRESIDENT: I am honored to bring to your honorable body that the Assembly on this day passed Assembly Bill No. 2400. As yet no authority for the adoption and approval of State codes of law, constitutions for business, industry, or sub-divisions thereof, has been given by a law of Congress. It is only by approval, prescribed or issued under that act of Congress, constitutionally known as the National Industrial Recovery Act, approved June 10, 1933, and to which, under industries or subdivisions thereof the provisions of an industrial code competition which in its way be approved, prescribed or issued under that act of Congress have been made. It could be any law of the State to provide for the enforcement of the provisions of any State code of law competition approved by it. It is not possible to discuss the urgency of this act and it is hoped that this act shall take effect immediately.

URGENCY CLAUSE

SEC. 31. *Urgency Measure.* This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of section 15 of Article IV of the Constitution of the State of California and shall take effect immediately. The facts constituting such a necessity are as follows: Various regional regions exist within the State of California where the congestion of population has increased with great rapidity and no proper provisions have been made for adequate park and playground facilities and for property rights assuring an adequate approach to the beaches. That due to this condition, children are, in many instances, forced to conduct their outdoor play in the streets where their lives and health are endangered by heavy traffic, and the public will soon be prevented from using the beaches for swimming or recreation, unless immediate steps are taken to preserve the permanent access to such beaches. That the lack of park and playground facilities and proper access to the beaches and

other facilities for public recreation and outdoor exercise will, unless taken care of promptly, become a general menace to life and health. That this act is necessary to afford the means of combined action in these matters by the different communities in the regional regions.

SEC. 32. *Validating Organization.* All districts which may have been created and established under this act, prior to the actual taking effect of the same, and which have been authorized by the affirmative vote, at an election held for that purpose, of a majority of the electors voting upon the proposition of the creation and establishment of such a district, are hereby declared to be legally and duly formed, created, established and existing regional park districts; and all proceedings taken under this act, prior to the actual taking effect of the same, leading up to the creation or establishment of any regional park district are hereby legalized, ratified and confirmed and declared to be valid to all intents and purposes, provided only that the creation and establishment of such district has been or shall be approved by a majority of the electors voting upon the proposition of the creation and establishment of such district.

Assembly Bill No. 2306—An act to amend section 4377 of the School Code relating to school district tax rates, declaring the urgency thereof, and providing that this act shall take effect immediately.

#### URGENCY CLAUSE.

SEC. 3. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of section 1 of Article IV of the Constitution, and shall, therefore, go into immediate effect.

The facts constituting the necessity are as follows:

A number of school districts in California have heretofore increased their maximum rates of school district tax under School Code sections 4375, 4376 and 4377 of the School Code, under which sections the maximum rate of school district tax, as increased by the voters of a school district, remained the maximum rate of school district tax in such district until diminished or further increased by the voters thereof. Under the provisions of Chapter 490 of the Statutes of 1933, which becomes effective August 21, 1933, increases in the maximum tax rate of a school district may be made by the voters of a district only for a period specified on the ballot of the election for an increase in such rates. There is a grave possibility that Chapter 490 of the Statutes of 1933 may be construed so as to have a retroactive effect, and thus render ineffective increases in the maximum school district tax rates heretofore voted by the electors of school districts. If such a construction is made, there will not be sufficient time between August 21, 1933, when said Chapter 490 of the Statutes of 1933 takes effect, and the first day of September, when school

district taxes are levied to permit the voters of a school district to increase the maximum district tax rate established by law for such district. This would prevent the voters of a school district from setting the maximum tax rate at the maximum tax rate of such school district and would operate to the detriment of the public schools and the children attending these public schools.

Urgency clause read.

The roll was called, and the urgency clause adopted by the following vote:

## COMMUNICATION.

The following communication, offered by Senator Herbert Slater, was read, and ordered printed in the Journal:

*Mr. President and Gentlemen of the Senate:*

I am very happy to comply with the request telegraphed me today by the Admission Day Celebration Committee of Santa Rosa wishing me to extend a cordial invitation to the members of the Legislature, their families and friends and people of the State of California generally, to attend the eighty-third anniversary of the admission of California into Statehood in the United States.

The Native Sons and Native Daughters of the Golden West join with the people of Santa Rosa and Sonoma County in extending a most cordial welcome to what promises to be one of the most colorful commemorations of California's natal day in Santa Rosa, September 8, 9 and 10.

The holding of the Admission Day observance in Santa Rosa this year fits in harmoniously with the fact that the Honorable Emmett Seawell, Associate Justice of the State Supreme Court, a charter member of Santa Rosa Parlor, Native Sons of the Golden West, is this year notably filling the office of Grand President of California Native Sons and the occasion will specially honor his administration.

Senator Bush moved the adoption of the following amendment, as substitute amendment, in place of the foregoing amendment by Senator Allen:

#### AMENDMENT NUMBER ONE

On page 7, line 9, of the printed bill, as amended in Senate July 25, 1933, after the period insert the following:

"If the electric energy involved in any such contract is to be distributed in a territory already being served by a public utility or companies, hereinafter designated as an existing utility, the agency, officer or commission applying to the authority for such electric energy, hereinafter designated as an "applying utility," shall serve written notice on the existing utility. Such notice shall be served in the same manner as a summons in a civil action to compel the payment of such service shall be filed with said authority. Within ninety days after service of such notice the existing utility shall file with the Railroad Commission a petition in writing setting forth the fact that the territory herein to be served by the applying utility, naming it, is already adequately served by an existing utility and asking that the Railroad Commission fix the valuation of the physical properties of such existing utility within such territory, together with any necessary damages as may be suffered by discontinuance of its service to such territory. A copy of such petition shall be served on the applying utility and on the authority in the same manner as a summons in a civil action and return of service made to the Railroad Commission. Unless said petition is so served and filed by the existing utility within thirty days after being served upon the authority may proceed with its negotiations for the contract with said applying utility. If said petition is filed all negotiations relating to the entering into said contract shall be stayed until the Railroad Commission has acted upon said petition and proceedings have been had as hereinafter set forth.

Any petition filed shall be heard within six months unless good cause appears to the commission for a further continuance. If the Railroad Commission shall determine that the territory is not being adequately served by an existing utility the authority may proceed to negotiate with said applying utility for the consumma-

tion of the said contract. If the Railroad Commission shall determine that said territory is being adequately served by an existing utility it shall proceed to determine the value of the physical property of the existing utility and the severance damage suffered by said utility by discontinuing its service in said territory and after making its order fixing such compensation a certified copy of same shall be filed with the authority. Thereupon, the said authority and said utility may proceed with the consummation of said contract, but said applying utility shall not enter said territory or commence the distribution of electric energy therein until it deposits with the Railroad Commission the amount of said award. If said award is accepted by the existing utility, it shall deposit with said Railroad Commission proper documents transferring all its right, title and interest to its physical properties used in distributing electric energy in said territory and be paid said deposit. Thereupon it shall discontinue its service in such territory and it shall be the duty of the applying utility thereafter to serve said territory. If said award is not accepted within sixty days after written notice of said deposit is served it shall be deemed refused and the applying utility may proceed with the distribution of electric energy in said territory and the existing utility may also continue such service.

The necessary costs and disbursements and expenses of said hearing and investigation to determine the value shall be paid by the applying utility.

In fixing the severance damages the commission shall not take into consideration the right to continue business in such territory but said severance damage shall be based solely on the difference, if any, between the fair market value of the remaining physical property of said existing utility before and after the severance."

## PETITION.

The following petition, offered by Senator McKinley, was received, read, and ordered printed in the Journal:

*To the Members of the Senate and Assembly of the State of California:*

The undersigned judges of the superior court of Los Angeles County, without desiring to impose upon your honorable bodies their own views, respectfully address you with reference to pending legislation affecting the salary of the office which they hold.

Bills were recently passed reducing the salaries of the judges of the City and County of San Francisco from \$110,000 to \$90,000 per year, those of Alameda County from \$10,000 to \$8,400 per year, and of Los Angeles County from \$10,000 to \$8,000 per year. The bill affecting San Francisco was signed by the Governor and the other two were vetoed, which leaves the San Francisco judges at \$9,000 and the Los Angeles judges at \$10,000.

The judges of Los Angeles County have made no representations or declarations to your honorable bodies upon any subject during its sessions.

Recommendations that the salaries of the judges of this county be reduced to \$9,000 per year have been made by the Los Angeles County Board of Supervisors, Los Angeles County Grand Jury, Chamber of Commerce, Central Labor Council, Women Lawyers' Club, Los Angeles Bar Association, by the press of Los Angeles County and other public and semi-public bodies and groups, such as are referred to in the message of the Governor to the Legislature in returning the two bills. These groups have as their paramount interest the welfare of the community. They have given mature consideration to the matter of the judges' salaries and are

well informed and qualified to recommend legislation upon the subject which will be entirely fair to the taxpayers of the county while carefully safeguarding the due administration of justice.

The judges are satisfied to abide by these recommendations and request that their salaries be reduced in accordance therewith.

In making this request they are conscious of the fact that our President and some of the most forward looking men and women of the country are attempting to accelerate our return to normalcy by the prevention of further reductions in salaries and the restoration of salaries heretofore reduced. The judges are in hearty accord with this program. However, in view of the fact that the San Francisco judges' salaries have been reduced and the fact that the Los Angeles judges desire to bear a fair share of the burden made unduly heavy on the taxpayers of the country by the temporary conditions of the times, the judges feel that a reduction would be proper at this time, and that there appears to be no sound reason for inequality in the salaries of the judges of the City and County of San Francisco and of the counties of Alameda and Los Angeles.

If such acquisition of the contract or option to acquire is to the extent at least of substantially identical property, then only a proportionate part of the loss shall be disallowed. Upon the subsequent sale or disposition of stock or securities, in respect of which a loss has been disallowed, the loss has exceeding without loss in the case of the property so acquired shall be the basis in the case of the stock or securities so sold or disposed of, except that in the subsequent period when in excess of the sale price such basis shall be increased in the amount of the difference, or if the repurchase price was less than the sale price such basis shall be decreased in the amount of the difference.

(f) Losses sustained during the income year of property not connected with the trade or business of selling that from theft, destruction or other casualty or from theft, and not compensable for by insurance or otherwise.

(a) In the case of a single individual, a personal exemption of one thousand dollars.

(b) In the case of the head of a family, or a married individual living with husband or wife, a personal exemption of two thousand five hundred dollars. A husband and wife living together shall receive but one personal exemption of two thousand five hundred dollars against their aggregate net income; and in case they make separate returns, the personal exemption of two thousand five hundred dollars may be taken by either or divided between them;

(d) In the case of a beneficiary of taxable under clause (a) of section 3, a personal exemption of one thousand dollars. If taxable under clause (b) of said section, the same exemption as would be allowed the decedent, if living; if taxable under clause (c) of said section, the same exemptions to which the beneficiary would be entitled.

The status on the last day of the income year shall determine the right to the exemptions provided in this section; provided that a taxpayer shall be entitled to such exemptions for husband or wife or dependent who has died during the income year.

SEC. 13. Every person taxable under this act, having a net income during the income year of one thousand dollars or over, if single, or if married and not living with husband or wife, or having a net income for the income year of two thousand five hundred dollars or over, if married and living with husband or wife, shall make a return under oath, stating specifically the items of his gross income and the deductions and exemptions allowed by this act.

If a husband and wife living together have an aggregate net income of two thousand five hundred dollars or over, each shall make such a return, unless the income of each is included in a single joint return.

If the taxpayer is unable to make his own return, the return shall be made by a duly authorized agent or by a guardian or other person charged with the care of the person or property of such taxpayer.

The return made by a fiduciary shall state specifically the items of gross income, and the deductions and exemptions allowed by this act and such other facts as the State board may prescribe. Under such regulations as the State board may prescribe, a return may be made by one of two or more joint fiduciaries.

Fiduciaries required to make returns under this act shall be subject to all the provisions of this act which apply to individuals.

SEC. 15. Every individual, partnership, corporation, joint stock company or association or insurance company, being a resident or having a place of business in this State, in whatever capacity acting, including lessors or mortgagors of real or personal property, fiduciaries, employers and all officers and employees of the State or of any political subdivision of the State, having the control, receipt, custody, disposal or payment of interest (other than interest coupons payable to bearer), rent, salaries, wages, premiums, annuities, compensations, remunerations, emoluments or other fixed or determinable annual or periodical gains, profits and income, amounting to one thousand dollars or over, paid or payable during any year to any taxpayer, shall make complete return thereof under oath, to the State board, under such regulations and in such form and manner and to such extent as may be prescribed by it.

Every partnership, having a place of business in the State, shall make a return, stating specifically the items of its gross income and the deductions allowed by this act, and shall include in the return the names and addresses of the individuals who would be entitled to share in the net income if distributed, and the amount of the distributive share of each income if distributed, and the amount of the distributive share of each individual. The return shall be sworn to by any one of the partners.

Every fiduciary shall make, under oath, a return for the individual estate or trust for whom or for which he acts, if the net income thereof, distributed or distributable to beneficiaries during the year is one thousand dollars or over, in which case the fiduciary shall set forth in such return the items of the gross income, the deductions allowed by this act, the net income, the names and addresses of the beneficiaries, the amounts distributed or distributable to each and the amount, if any, lawfully retained by him for future distribution. Such return may be made by one of two or more joint fiduciaries.

SEC. 16. Returns shall be in such form as the State board may from time to time prescribe and shall be filed with the State board, at its main office or at any branch office which it may establish, by each person taxable hereunder, within two months and fifteen days after the close of his income year. In case of sickness, absence or other disability, or whenever in its judgment good cause exists, the State board may allow further time, not exceeding ninety days, for filing returns. There shall be annexed to the return the affidavit or affirmation of the taxpayer making the return, to the effect that the statements contained therein are true. The State board shall cause to be prepared blank forms for the said returns and shall cause them to be distributed throughout the State and to be furnished upon application, but failure to receive or secure the form shall not relieve any taxpayer from the obligation of making any return herein required.

SEC. 17. If the State board shall be of the opinion that any taxpayer has failed to file a return, or to include in a return filed, either intentionally or through error, items of taxable income, it may require from such taxpayer a return, or a supplementary return, under oath, in such form as it shall prescribe, of all the items of income which the taxpayer received during the year for which the return is made, whether or not taxable under the provisions of this act. If from a supplementary return, or otherwise, the State board finds that any items of income, taxable under this act, have been omitted from the original return it may require the items so omitted to be disclosed to it, under oath of the taxpayer, and to be added to the

original return. Such supplementary return and the correction of the original return shall not release the taxpayer from any of the penalties to which he may be liable under any provision of this act. The State board may proceed under the provisions of section 20 of this act whether or not it requires a return or a supplementary return under this section.

Sec. 18. One-half the amount of the tax disclosed by the return shall be due and payable on or before the fifteenth day of the third month following the close of the taxable year, and the balance of the tax shall be due and payable on or before the fifteenth day of the sixth month following the close of the taxable year.

If the State board shall allow an extension of time for filing any return hereunder, there shall be a corresponding extension of time for the payment of the first installment of the amount of tax remaining to be assessed, but there shall be added to and collected with such tax interest thereon at the rate of one-half of one per cent per month or each fraction of a month from and after the date when the tax would otherwise have been due and payable.

The tax may be paid with uncertified check, payable to the State Treasurer, during such time and under such regulations as the State board shall prescribe, but if a check is received and paid by the bank on which it is drawn, the taxpayer by whom such check is cashed shall remain liable for the payment of the tax and for all legal penalties thereon as if such check had not been tendered.

Sec. 19. As soon as practicable after the return is filed, the State board shall examine it and compute the tax, and the amount so computed by the State board shall be the tax. If the tax found due shall be greater than the amount theretofore paid, the excess shall be paid to the State board within thirty days after notice of the amount shall be received by the State board.

If the return is made in good faith and the deficiency of the tax is not due to any fault of the taxpayer, the deficiency shall be added to the amount of the deficiency at the rate of one per cent for each month or fraction of a month.

If the understatement is due to negligence on the part of the taxpayer, but without intent to defraud, there shall be added to the amount of the deficiency five per cent thereof, and in addition, interest at the rate of one per cent per month or fraction of a month.

If the understatement is fraudulent, with intent to evade the tax, the tax on the additional income discovered to be taxable shall be increased by fifty per cent and an additional one per cent per month or fraction of a month shall be added.

The interest provided for in this section shall in all cases be computed from the date the tax was actually due to the State board.

If the amount of the tax found due exceeds the amount paid, the taxpayer must, theretofore paid, the excess shall be assessed by the State board out of the proceeds of the tax required to be so assessed by this act.

Sec. 20. If the State board shall find that the computation of the return, or otherwise, so that the income of any taxpayer, or any portion thereof, has not been assessed, it may, at any time within three years after the time when the return was due, assess the deficiency and additions to be collected in an assessment and such taxpayer shall, upon receipt of such assessment, within sixty days, to confer with the State board as to the assessment. The limitation of three years to the assessment of any deficiency in additional tax shall not apply to the assessment of additional taxes now provided for herein. After the expiration of sixty days from such notification the State board shall assess the income of such taxpayer or any portion thereof which is believed by any assessment to be assessed and shall give notice to the taxpayer of the amount of the deficiency of the tax and interest and penalties if any, and the date when the tax and interest and penalties must be paid from the date of such notice. The provisions of this act with respect to revision and appeal shall apply to a tax so assessed. No additional tax amounting to less than one dollar shall be assessed.

Sec. 21. At any time within three years after the delinquency of any tax, or any installment thereof, the Controller of the State may bring an action in a court of competent jurisdiction in the county of Sacramento in the name of the people of the State to collect the amount delinquent, together with penalties, and such action shall be tried in the county of Sacramento unless the court, with the consent of the Attorney General, shall order a change of venue. The Attorney General shall represent the State in such action, and the officers of the Office of Civil Process shall serve all subpoenas, summonses, pleadings, process, writs, and appeals as applicable to the proceedings herein provided for. In such action a writ of attachment may be issued, and no bond or affidavit previous to the issuing of said writ shall be required. In such action a certificate by the State board showing the delinquency and the prima facie evidence of the levy of the tax, of the delinquency and of compliance by the State board of enforcement with all the provisions of this act in relation to the computation and levy of the tax.

At any time within which an action can be brought to collect any delinquent tax as provided in the preceding paragraph, the Controller may collect the tax, together with penalties and interest in the following manner: The Controller shall seize any property, real or personal, owned by the taxpayer against whom

the tax is assessed, and thereafter sell at public auction such property so seized, or a sufficient portion thereof, to pay the tax due hereunder, together with any interest, and any penalty or penalties imposed hereby for such delinquency, and any and all costs that may have been incurred on account of such seizure and sale. Notice of such intended sale and the time and place thereof, shall be given to such delinquent taxpayer and to all persons appearing of record to have an interest in such property, in writing at least ten days before the date set for such sale by enclosing such notice in an envelope addressed to said taxpayer at its last known place of business in this State if any, and, in the case of any person appearing of record to have an interest in such property, addressed to such person at the last known place of residence if any, and depositing the same in the United States mail, postage prepaid, and by publication for at least ten days before the date set for such sale in a newspaper of general circulation published in the county or city and county in which the property seized is to be sold; provided, however, that if there be no newspaper of general circulation in such county or city and county, then by the posting of such notice in three public places in such county or city and county for said ten-day period. The said notice shall contain a description of the property to be sold, together with a statement of the amount of the taxes, interest, penalties and costs, the name of the taxpayer, and the further statement that, unless such taxes, interest, penalties and costs are paid on or before the time fixed in said notice for such sale, said property, or so much thereof as may be necessary, will be sold in accordance with law and said notice.

At any such sale, the property shall be sold by said Controller or his duly authorized agent in accordance with law and said notice, and the Controller shall deliver to the purchaser a bill of sale for the personal property, and a deed for any real property so sold, and such bill of sale or deed shall vest title in the purchaser. The unsold portion of any property so seized may be left at the place of sale at the risk of said taxpayer. If, upon any such sale, the moneys so received shall exceed the amount of all taxes, interest, penalties and costs, due the State from such taxpayer, any such excess shall be returned to the taxpayer and a receipt therefor obtained; provided, however, that if any person having an interest in or lien upon the property has filed with the Controller prior to any such sale notice of such interest or lien the Controller shall withhold any such excess pending the determination of the rights of the respective parties thereto by a court of competent jurisdiction. If, for any reason, the receipt of such taxpayer shall not be available, the Controller shall deposit such excess moneys with the State Treasurer, as trustee for such owner, subject to the order of such taxpayer, or its successor through reorganization, merger, or consolidation, or its stockholders upon dissolution.

It is expressly provided that the foregoing remedies of the State shall be cumulative and that no action taken by the Controller shall be or be construed to be an election on the part of the State or any of its officers to pursue any remedy hereunder to the exclusion of any other remedy for which provision is made in this act.

SEC. 22. At any time after the computation of the tax by the State board, the State board may record in the recorder's office of any county a notice of lien specifying the amount of the tax and the name of the taxpayer liable for the same. From the time of filing any such notice the amount of the tax specified in such notice together with any penalties for delinquency in the payment thereof thereafter attaching, shall have the force and effect of a judgment lien against the taxpayer named in such notice of lien. Such lien may be released by filing for record in the office of the county recorder of a release thereof executed by the board upon payment of the tax, interest, and penalties or upon receipt by the board of security sufficient to secure payment thereof, but no such release shall be deemed a waiver of any tax, interest or penalty levied or assessed under this act and due and payable or to become due and payable by such taxpayer.

SEC. 23. No final account of a fiduciary shall be allowed by the probate court unless such account shows and the judge of said court finds, that all taxes imposed by the provisions of this act upon said fiduciary, which have become payable, have been paid, and that all taxes which may become due are secured by bond, deposit or otherwise. The certificate of the State board and the receipt for the amount of the tax therein certified shall be conclusive as to the payment of the tax, to the extent of said certificate.

For the purpose of facilitating the settlement and distribution of estates held by fiduciaries, the State board, with the approval of the Attorney General, may on behalf of the State agree upon the amount of taxes at any time due or to become due from such fiduciaries under the provisions of this act, and payment in accordance with such agreement shall be full satisfaction of the taxes to which the agreement relates.

SEC. 24. If any taxpayer, without intent to evade any tax imposed by this act shall fail to file a return of income or pay a tax, if one is due, at the time required by or under the provisions of this act, but shall voluntarily file a correct return of income and pay the tax due within sixty days thereafter, there shall be added to the tax an additional amount equal to five per cent thereof, but such addi-

tional amount shall be assessed for the tax one dollar and an additional one per cent for each month or fraction of a month during which the tax remains unpaid.

If any taxpayer fails voluntarily to file a return or to pay a tax if one is due within thirty days of the time required by or under the provisions of this act, the tax shall be assessed by return for the next year and will be further increased by one per cent for each month or fraction of a month from the time the tax was originally due to the date of payment.

Any person who, without fraudulent intent, fails to pay any tax or to make, render, sign or verify any return, or to supply any information, within the time required by or under the provisions of this act, shall be liable to a penalty of not more than one thousand dollars, to be recovered by the Attorney General in the name of the people, by action or summary proceeding in summary jurisdiction.

Any person or any officer or employee of any corporation, or member or employee of any partnership, who, with intent to evade any requirement of this act or any lawful requirement of the State board thereunder shall fail to pay any tax or to make, sign or verify any return or to supply any information required by or under the provisions of this act, or who willfully neglects to make, render, sign or verify any return or to supply any information, shall be liable to a penalty of not more than one thousand dollars, to be recovered by the Attorney General in the name of the people, by action or summary proceeding in summary jurisdiction, and shall also be guilty of a misdemeanor and shall, upon conviction, be fined not to exceed one thousand dollars or be imprisoned not to exceed one year, or both, at the discretion of the court.

The Attorney General shall have the power, with the consent of the State board, to compromise any penalty for which he is authorized to bring action under this section. The penalties provided in this section shall be additional to all other penalties in this act.

The certificate of the State board to the effect that a tax has not been paid, that a return has not been filed or that information has not been supplied as required by or under the provisions of this act, shall be prima facie evidence that such tax has not been paid, that such return has not been filed or that such information has not been supplied.

If any taxpayer, who has failed to file a return or has filed an incorrect or incomplete return and has been notified by the State board of his delinquency, refuses or neglects within twenty days after such notice to file a proper return, or files a fraudulent return, the State board shall determine the amount of such taxpayer's liability on the basis of the information and belief and assess the same at one and one-half the amount so determined.

SEC. 25. A taxpayer may apply to the State board for revision of the tax assessed against him, at any time within three years from the time of the filing of the return or from the date of the notice of the assessment of any additional tax. The State board shall grant a hearing thereon and if, upon such hearing, it shall determine that the tax is in excess or in deficiency, it shall compute the same according to the law and the facts and adjust the computation of tax accordingly. The State board shall make the purpose of an investigation and subject to the approval of the State Board of Finance, shall refund to the taxpayer the amount, if any, paid in excess of the tax found by it to be due. If the taxpayer has failed, without good cause, to file a return within the time prescribed by law, or has filed a fraudulent return or failed to file a summary return, has failed after notice to file a proper return, the State board shall not reduce the tax below one and one-half the amount for which the taxpayer is found to be properly assessed.

SEC. 26. The computation of the State board upon any application made by a taxpayer for revision of any tax, may be reviewed in any court of competent jurisdiction by a complaint filed by the taxpayer against the State board in the county of Sacramento within sixty days after the notice by the State board of its determination, as provided in section 25 of this act. Thereupon, appropriate proceedings shall be had and the relief, if any, to which the taxpayer may be found entitled may be granted and any taxes, interest or penalties paid, found by the court to be in excess of those legally assessed shall be ordered refunded to the taxpayer, with interest from date of payment.

SEC. 27. The State board, for the purpose of ascertaining the correctness of any return or for the purpose of making an estimate of the taxable income of any taxpayer, shall have power to examine or cause to be examined by any agent or representative designated by it the books, records, papers, books, records or memoranda bearing upon the matters required to be included in the return, and may require the attendance of the taxpayer or of any other person having knowledge in the premises, and may examine, copy and require proof material for its information, with power to subpoena and to send notices of attendance.

SEC. 28. The State board may employ, exempt from the provisions of the Civil Service Act, such clerical, stenographic, typewriting, messengers and assistants as it may deem necessary to enforce its powers and perform its duties under this act.

SEC. 29. It shall be unlawful for any member of the State Board of Equalization or the State Controller or any person having an administrative duty under this act to divulge any information concerning the business affairs of persons reporting hereunder; provided, however, that the Governor may authorize examination of such returns by other State officers, in which event the information obtained shall not be made public; provided, further, that such returns may be examined, with the consent of the Governor, by tax officers of another State or the Federal government, if a reciprocal arrangement exists.

SEC. 30. The State board may from time to time make such rules and regulations, not inconsistent with this act, as it may deem necessary to enforce its provisions.

SEC. 31. All moneys and remittances received by the State board in pursuance of the provisions of this act shall be transmitted daily to the State Treasurer, and copies of the schedules covering such transmittals shall be furnished at the same time to the State Controller.

All moneys and remittances so received and so transmitted shall be deposited, after clearance of remittances, in the State treasury and credited to the "income tax fund" which fund is hereby created.

There is hereby appropriated an amount equal to three per cent, or so much thereof as may be necessary, of the amount so deposited in the "income tax fund," to be used by the State board to pay all expenses incurred by said board in carrying out the provisions of this act.

The State Controller, after allowing the refunds for which provision is made in section 25 of this act, shall transfer the remainder in said income tax fund to the general fund of the State.

SEC. 32. This act shall be known as the "Personal Income Tax Act of 1933."

SEC. 33. If any section, subsection, clause, sentence or phrase of this act which is reasonably separable from the remaining portions of this act is for any reason held to be unconstitutional, such decision shall not affect the remaining portions of this act. The Legislature hereby declares that it would have passed the remaining portions of this act irrespective of the fact that any such section, subsection, clause, sentence or phrase of this act be declared unconstitutional.

##### STATEMENT BY SENATOR SCHOTTKY

The following statement by Senator Schottky was read, and ordered printed in the Journal:

##### STATEMENT AS READ ON ASSEMBLY BILL NUMBER FIVE HUNDRED TWENTY-TWO.

There are a number of items in this bill in which I do not approve. However, it is necessary to vote upon this bill as a whole, and I can not bring myself to the point of voting "No" upon this bill, because in so doing the Division of Narcotic Enforcement would not be able to function and the Department of Social Welfare would have insufficient funds to carry on its important work. The failure of the Division of Narcotic Enforcement to function for lack of sufficient funds would, in my judgment, cost the people far more in increased crime than the amount required to carry on the work of the department. The failure of the Department of Social Welfare to function for lack of funds would cost additional burdens and expense look upon our citizens, and would add to the misery of many poor people. So, while there are some items in this bill that may justly be criticized, yet for the reasons mentioned, I shall vote for this bill.

SCHOTTKY, Chairman.

## COMMUNICATION.

The following communication, offered by Senator Jones, was read, and ordered printed in the Journal.

CALIFORNIA STATE GRANGE,  
SACRAMENTO, CALIFORNIA, July 26, 1933.

Senator Herbert C. Jones, Sacramento, California.

DEAR SENATOR JONES: The California State Grange is in record in favor of an income tax. The Grange has consistently found tax regulations of taxes laid on that conception, but strictly applied to the tax burden on the people, and on the poorer classes. We are opposed to a tax on income, as an income tax, No. 9 on the ballot last year, and have no opinion on a reasonable sales tax this year, owing to the general financial condition of the State, but feel it should be recognized wholly as an emergency measure.

The Grange desires to see no increase in taxes of the income tax as a first and equitable means of raising State revenues from a class of people who are able to pay. We have experienced with the State where the income tax has been applied, some loss of credit. We believe the principle of the income tax is right, as it is based on the ability to pay rather than the right to collect. There is no disposition on the part of the Grange to interfere with the profits of industry, but it is necessary to all economic and distribution of wealth is essential to the economic stability of the country.

The Grange has many thousands of members in this State, and all have expressed their views. We have many friends among Grangers, farmers, and Grangers, and from a large number of institutions, including the Grange, and all without exception have asked that reasonable help for the construction of an adequate income tax as one of the means of balancing the budget.

Very truly yours,

GEORGE F. H. MEYER, Master, California State Grange.
